### CAREC Advanced Transit System (CATS)

CORRIDOR SELECTION AND TRADE/TRANSIT ANALYSIS MR. GRAHAM WALKER, TEAM LEADER/ADB CONSULTANT

### Presentation

- a) Project Background
- b) Justification of Pilot Corridor 2a
- c) Trade/Transit Analysis

## Project Background

### **Facilitation of Regional Transit Trade in CAREC (2014-2017)**

- Research Report on Transit Flows
- Report on Single Transit Guarantee Mechanism
- Report on Legal and Regulatory Framework
- ICT Solutions for Transit
- Report on Georgia
  - CAREC Advanced Transit Mechanism (CATS)
  - Agreement on Pilot Corridor at Final Workshop, Baku (December 2016)
  - Azerbaijan, Georgia and Kazakhstan

### **TA Rationale and TTFS Strategic Framework**

CAREC Transport and Trade Facilitation Strategy (TTFS) 2020 signed in October 2013 highlighted 2 strategic objectives:

#### • Trade Expansion:

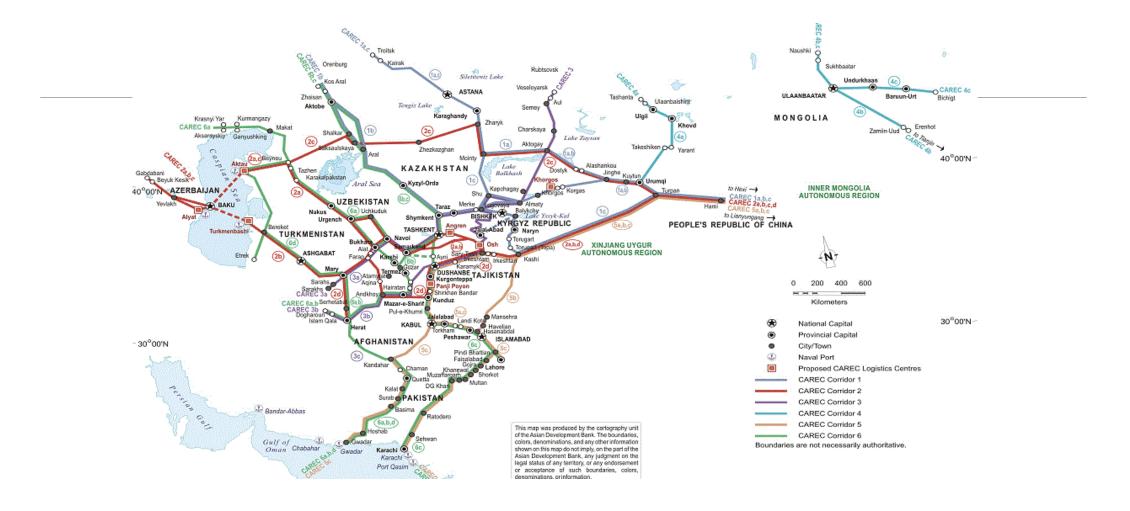

• Through transport connectivity, the facilitation of the cross-border movement of goods and people, trade liberalisation and energy trade.

#### • Improved Competitiveness:

 Through transport connectivity, improved transport infrastructure, the development of competitive corridors across the CAREC region and energy sector cooperation.

## **CAREC Corridors**

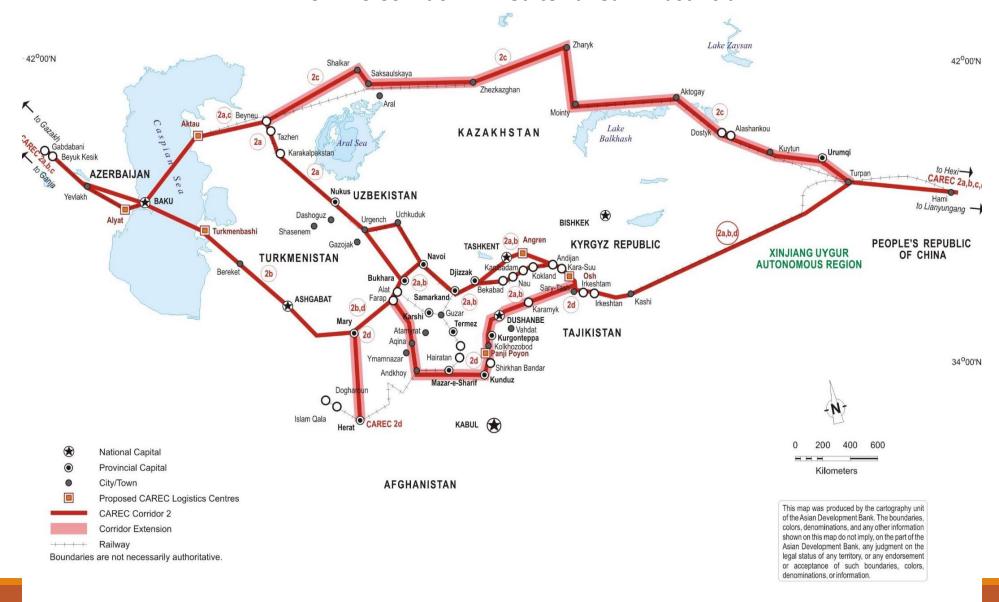

## Justification of Pilot Corridor 2a

#### CAREC Corridor 2: Mediterranean –East Asia

### Rationale

#### Traffic density:

 Large trade flows along Corridor 2 with a high Average Annual Daily Traffic (AADT) moving towards Georgia and Europe

#### Port Developments on Caspian and Black Sea

- Azerbaijan: New Baku International Seaport port of Baku/Alyat. Capacity to increase from 10 million tons of cargo and 50,000 TEU to 25 million tons of cargo and 1 million TEU
- Kazakhstan: Aktau undergoing significant expansion and part of TRACECA Silk Wind Project to develop RO-RO network linking the PRC with Europe using multi-modal container block trains.
- Georgia: Anaklia Deep Sea Port to be built with deep water facility at cost of USD 2.5 billion and 100 million tonne capacity. Completion by 2020.

## Rationale (continued)

- Road and Rail Infrastructure Development
  - Georgia: East-West Highway (E-60) funded by ADB, EIB, JICA and World Bank.
  - Baku-Tbilisi-Kars Railway provides link between Georgia, Azerbaijan, Turkey and European rail networks.
- Links to European Union. Georgia has Association Agreement and Deep and Comprehensive Free Trade Agreement with EU and free trade agreement with China. Links to National Computerised Transit System (NCTS network).
- **Silk Road developments** and One Belt One Road through the 3 Pilot countries. Shortest route between China and Europe and focal point for USD40 billion of Chinese infrastructure development.
- IT Systems with well developed systems in place in all 3 countries
- Agreement of 3 countries to participate in Pilot (Baku, December 2016). Already cooperate on Silk Wind Project.

# Road traffic density (AADT) for road transport along the CAREC Corridors

## Trade/Transit Analysis

# Azerbaijan

## Transit Data for Azerbaijan

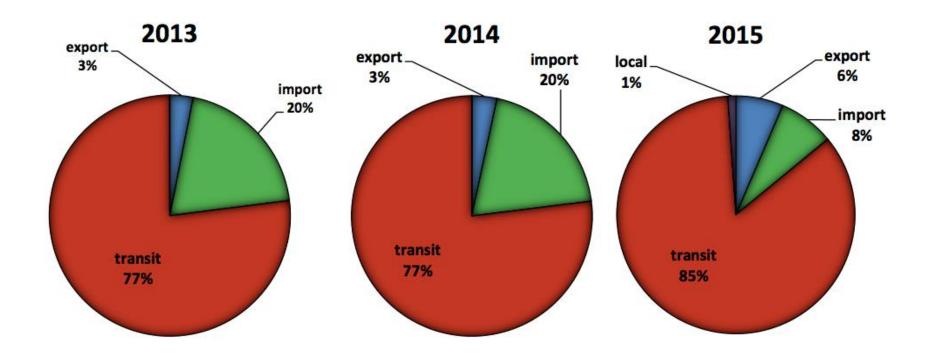

2016 Annual: 8.68 million tons

2017: First Quarter: 2.94 million tons

Source: State Customs Committee 2017

Azerbaijan: Export, Import, Transit and Local Cargo at Baku International Sea Trade Port 2013 to 2015 (tons)

### Country of Origin of Transit Flows by Road in Azerbaijan 2011 to 2014 (tons)

Country of Origin	2011	2012	2013	2014
	(tons)	(tons)	(tons)	(tons)
Afghanistan		169,358	9,453	10,531
