

Integrated Trade Facilitation Support for CAREC

Draft findings:

Jerry Wellens and Robbie Macalalde

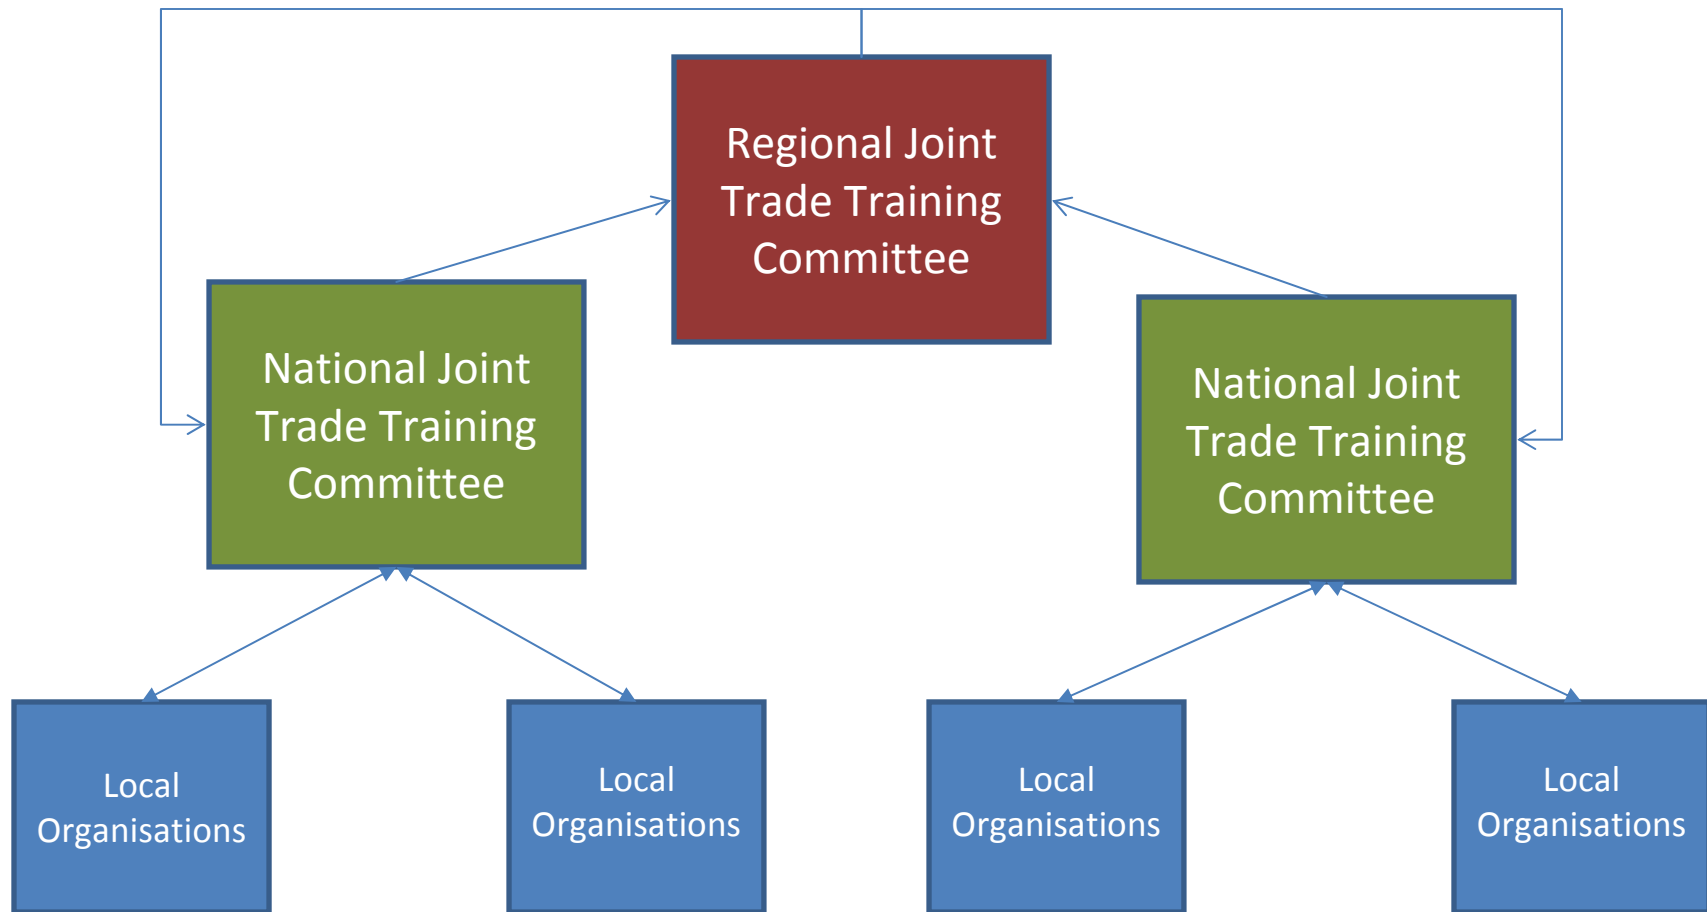

Recommendations

- Based on the identified needs and gaps, the following are recommended
 - establishment of training and development committees at regional and national level,
 - creation of a simple Regional Training Database, accessible to all member nations;
 - creation of a simple training development structure,
 - delivery of a trade facilitation core curriculum.

Recommendations

- National Joint Trade Training Committee
- Regional Joint Trade Training Committee
- Regional Joint Trade Training Database
- Development Framework

Training Committee

National Joint Trade Training Committee

- To collate and compile information on its members' identified training needs and newly-developed capacity;
- To identify existing local solutions where possible;
- Where a local solution does not exist, to create a needs document outlining the circumstances of the need and report to the Regional committee;
- To report new capacity to the Regional Committee;
- To identify local recipients of “train the trainers” development in externally delivered subjects;
- To seek feedback on the effectiveness of delivered training;
- To update the CAREC training database with potential national contributions;
- To identify and apply for funding in support of Nationally-identified needs.

Regional Joint Trade Training Committee

- To collate and compile information on national training committees' identified training needs and newly-developed capacity;
- To identify existing CAREC regional solutions where available;
- To identify CAREC-wide common needs;
- To identify Regional needs on a strategic level ;
- To liaise with CCC and other CAREC regional groups;
- To source external training support where appropriate;
- To oversee the maintenance of a CAREC regional database;
- To identify and apply for funding in support of Regionally-identified needs.

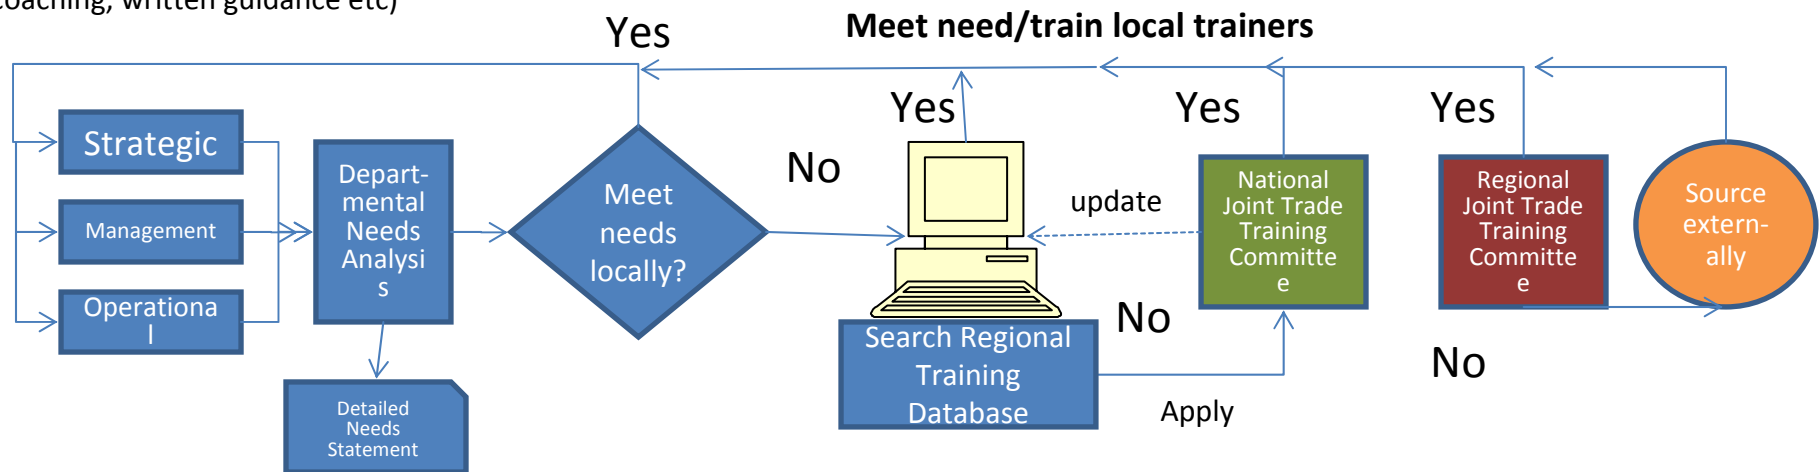

Regional Joint Trade Training Database

- Web-access
- Course details
 - Objectives
 - Target population
 - Key learning
 - Contacts
- Home server for e-learning

Recommendations

Deliver training

(classroom, e-learning, coaching, written guidance etc)

Recommendations: Core Curriculum for CAREC Trade Facilitation Development - *Customs*

- **Single Window Strategic Development**
 - Aimed at Senior Officials
 - Creating and managing the “bottom-up” approach to achieve a solution appropriate to the country environment
 - Mix of classroom, coaching and consultancy
 - Senior tutors with experience of strategic design

Recommendations: Core Curriculum for CAREC Trade Facilitation Development - *Customs*

- **Single Window Process Development**
 - Training for implementation
 - Aimed at Project Managers
 - Mix of classroom, coaching and consultancy
 - Tutors with experience of implementation
 - Supports appropriate development

Core Curriculum for CAREC Trade Facilitation Development - *Customs*

- **Risk Management Techniques in a Trade Facilitation Environment**
 - Introduce practical techniques
 - Anti-smuggling & fiscal risk
 - Mix of classroom and supervised practical work
 - Tutors with practical experience

Core Curriculum for CAREC Trade Facilitation Development - *Customs*

- **Post-customs control**
 - For managers and operational staff
 - Auditing at traders premises
 - Interface with risk management
 - Partnership approach to control
 - Mix of classroom/practical work/distance learning
 - Tutors with practical experience

Core Curriculum for CAREC Trade Facilitation Development - *Customs*

- **Trade Awareness for Border Control Staff**
 - Aimed at operational staff
 - Gives a trade context to border control work
 - Promote understanding of trade practices and priorities
 - Promote cooperation and communication

Core Curriculum for CAREC Trade Facilitation Development – *Other Trade Facilitation*

- **Legislative Reform & Trade Facilitation**
 - Aimed at those responsible for drafting new legislation
 - WTO and other standards
 - Classroom/workshop sessions
 - Tutors with relevant practical experience

Core Curriculum for CAREC Trade Facilitation Development – *Other Trade Facilitation*

- **Regional General Logistics Development Programme**
 - Aimed at forwarders and logistics providers
 - Increase professionalism
 - Develop skills & knowledge
 - Modular approach
 - Affiliation/certification?

Core Curriculum for CAREC Trade Facilitation Development – *Other Trade Facilitation*

- **Customs for Logistics Practitioners**
 - Aimed at forwarders and logistics providers
 - Delivered in-country/distance learning
 - Develop knowledge of national customs procedures & requirements
 - Aiming to reduce delays/preventable errors

Core Curriculum for CAREC Trade Facilitation Development – *Other Trade Facilitation*

- **Training Needs Analysis (TNA):**
 - Aimed at Human Resource practitioners
 - Supports proposed Capacity Building Framework
 - Skills and processes involved in identifying need
 - Classroom and practical work
 - Delivered by tutors with practical experience of TNA

Core Curriculum for CAREC Trade Facilitation Development – *Other Trade Facilitation*

- **Trainer Skills**

- Supports sustainability proposals
- Develops participative trainer skills
- Classroom and practical work
- Delivered by experienced participative trainers
