Part 1 International and National Training

FIATA Qualification Examination and Training

There are 8 training centers. Training classes begin in each August. FIATA certificate tests (written test and oral test) are held at the end of October.

Two FIATA teacher training sessions were held in China, with about 60 participants.

As of the end of last year, 459 students nationwide received systematic training and obtained certificates issued by FIATA.

Over 40 people nationwide are expected to participate in training in 2013.

Textbooks being used are verified by FIATA headquarter in March 2010, with a valid period of 4 years. After 4 years of use, textbooks should be revised and handed to FIATA headquarter for verification.

Eight years' efforts have made this project a mature one with a certain degree of recognition in industry nationwide. This project has also become one important factor when our association considers recommending domestic enterprises to join FIATA.

Part 1 International and National Training

CIFA Diploma in Freight Forwarding and Training

148 locations of registration for exam training nationwide.

Number of CIFA training participants in recent 3 years

12,000 in 2011 14,000 in 2012

Registration not over in 2013; over 10,000 participants according to incomplete data.

Teacher training once a year, with about 400 participants.

Part 2 Introduction to Industry

Credit Evaluation

Industry Credit Rating: Policy Support from Two Agencies and Promotion by National First-level Association

Industry credit evaluation is government-directed and association-focused credit building. In 2005, the Credit Affairs Office under the Ministry of Commerce and SASAC jointly released the *Guiding Opinions on Industry Credit Evaluation for Associations*, advanced the guiding philosophy and basic principle of promoting comprehensive and association-focused industry credit building, and determined to conduct industry credit evaluation for members of associations.

As of the end of 2012, 148 associations nationwide received qualifications for industry credit evaluation and engaged in related work.

China's Freight Forwarding and Logistics Industry Credit Evaluation

In 2007, MOC and SASAC jointly released *Notice on Strengthening the Management of Industry Credit Rating in Pilot Programs (zheng gui fa ban (2007)3)* and approved China International Freight Forwarders Association (CIFA) to be responsible for nationwide credit evaluation.

Since 2007, CIFA has worked with China National Credit Information Service, Inc., a third party credit service provider affiliated to MOC, and identified over 500 companies in China's logistics industry with A level rating and above.

- To increase the popularity of companies with credit ratings and promote the application of rating results, MOC and SASAC have published the annual Enterprise Directory for Industry Credit Rating-Level A and Above (corporate information recorded in Chinese and English.)since 2009. They recommend the directory to the public, and are subject to public oversight. The directories are sent to relevant government agencies, foreign embassies to China, Chinese embassies to foreign countries and economic and commercial counsellor's offices, financial institutions and intermediaries.
- The directory contains about 8000 companies with A level rating and above from 148 associations, covering industries in economy and trade such as mechanics, petrochemicals, power, agriculture, irrigation, logistics, architecture, health care and import and export.
