

Central Asia Regional Economic Cooperation Program

OUTLINE OF THE COMPLETION REPORT OF THE

Energy Action Plan (EAP) Framework

Presented for endorsement by the
ESCC Meeting (21-22 May 2012), Manila

CHAPTER I

BACKGROUND

- Timeline of Past Actions (ESCC and SOM endorsement of key documents with dates)
- Energy Strategy Document (key thrusts)
- Energy Action Plan Framework (principles and strategic objectives, including 3 pillars)
- Planned Future Actions (replacing EAP with EWP to capture guidelines given in CAREC 2020)

CHAPTER 2

ACTIONS TAKEN UNDER EAP PILLARS

- Energy Security and Supply Demand Balances (list and state key outcomes)
- Regional Dispatch and Regulation (narrate outcomes of RESET and other capacity building actions)
- Energy-Water Linkages (describe computer models developed and results disseminated)

CHAPTER 3

IMPEDIMENTS TO IMPLEMENTATION OF EAP FRAMEWORK

- Technical issues (a dysfunctional CAPS)
- Delayed implementation of RESET Project
- Issues on reliability of available hydrology and related data
- Funding constraints (list urgent initiatives that could not be launched)

CHAPTER 4

THE WAY FORWARD (CONCLUSIONS AND RECOMMENDATIONS)

- Key Elements of 2013-15 Energy Work Plan (EWP)
- Medium and long-term projects summary list

ANNEXES

- i. Timetable of ESCC actions on EAP
- ii. Schedule of outputs as compared to milestones in the EAP
- iii. Results Framework Matrix

Thank you

**Questions, Comments and
Recommendations are welcome**
