Email: gli358@gmail.com

Organization

- China Animal Health and Epidemiology Center (Beijing Branch)
- The Diagnosis Laboratory of Tuberculosis and Pet Epidemic Diseases

Faculty and Staff

- 2 Primary investigators (Professors)
- 3 Research assistants (PhD)
- 2 Post doctoral researchers
- 2 PhD students
- 16 MSc students

Research Fields

- Diagnoses and control of animal important infectious diseases
- Development of new vaccines and adjuvants
- Studies of veterinary regulation and law (For economy)

Research Focus

- Tuberculosis
- Pets (dogs and cats, avian) infectious diseases: rabies, canine distemper, canine parvovirus infection, feline panleukopenia, avian influenza
- Africa swine fever
- Peste des petits ruminant

Research Funds

1. FAO/IAEA
2. National Research Foundation
3. Ministry of Science and Technology
4. Ministry of Agriculture
5. Government of Beijing City
6. Companies

Basic Research

- Mechanisms of immunosuppression of PRRSV
- Studies on reverse genetics system for recovery of rabies virus

Applied Research

- Development of new adjuvants (CpG)
- Development of Diagnosis methods for diseases and viruses: TB, Rabies, PPR, PRRS, PCV, AIV, CPV
- Development of vaccines: CDV, CPV, rabies virus

Thank You For Attention!
