# Clearance procedure for road border crossing points

# Electronic check point

Vehicle registration

Radiation control

Measuring

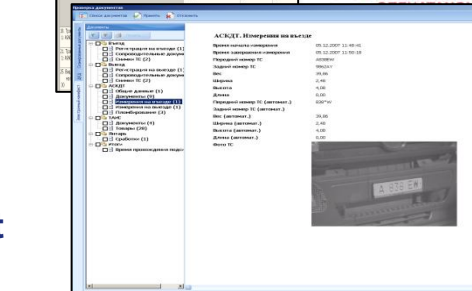

Vehicle scanning

Safe-packet clearance

Registration of vehicle exit

Attaching an electronic seal

Electronic manifest

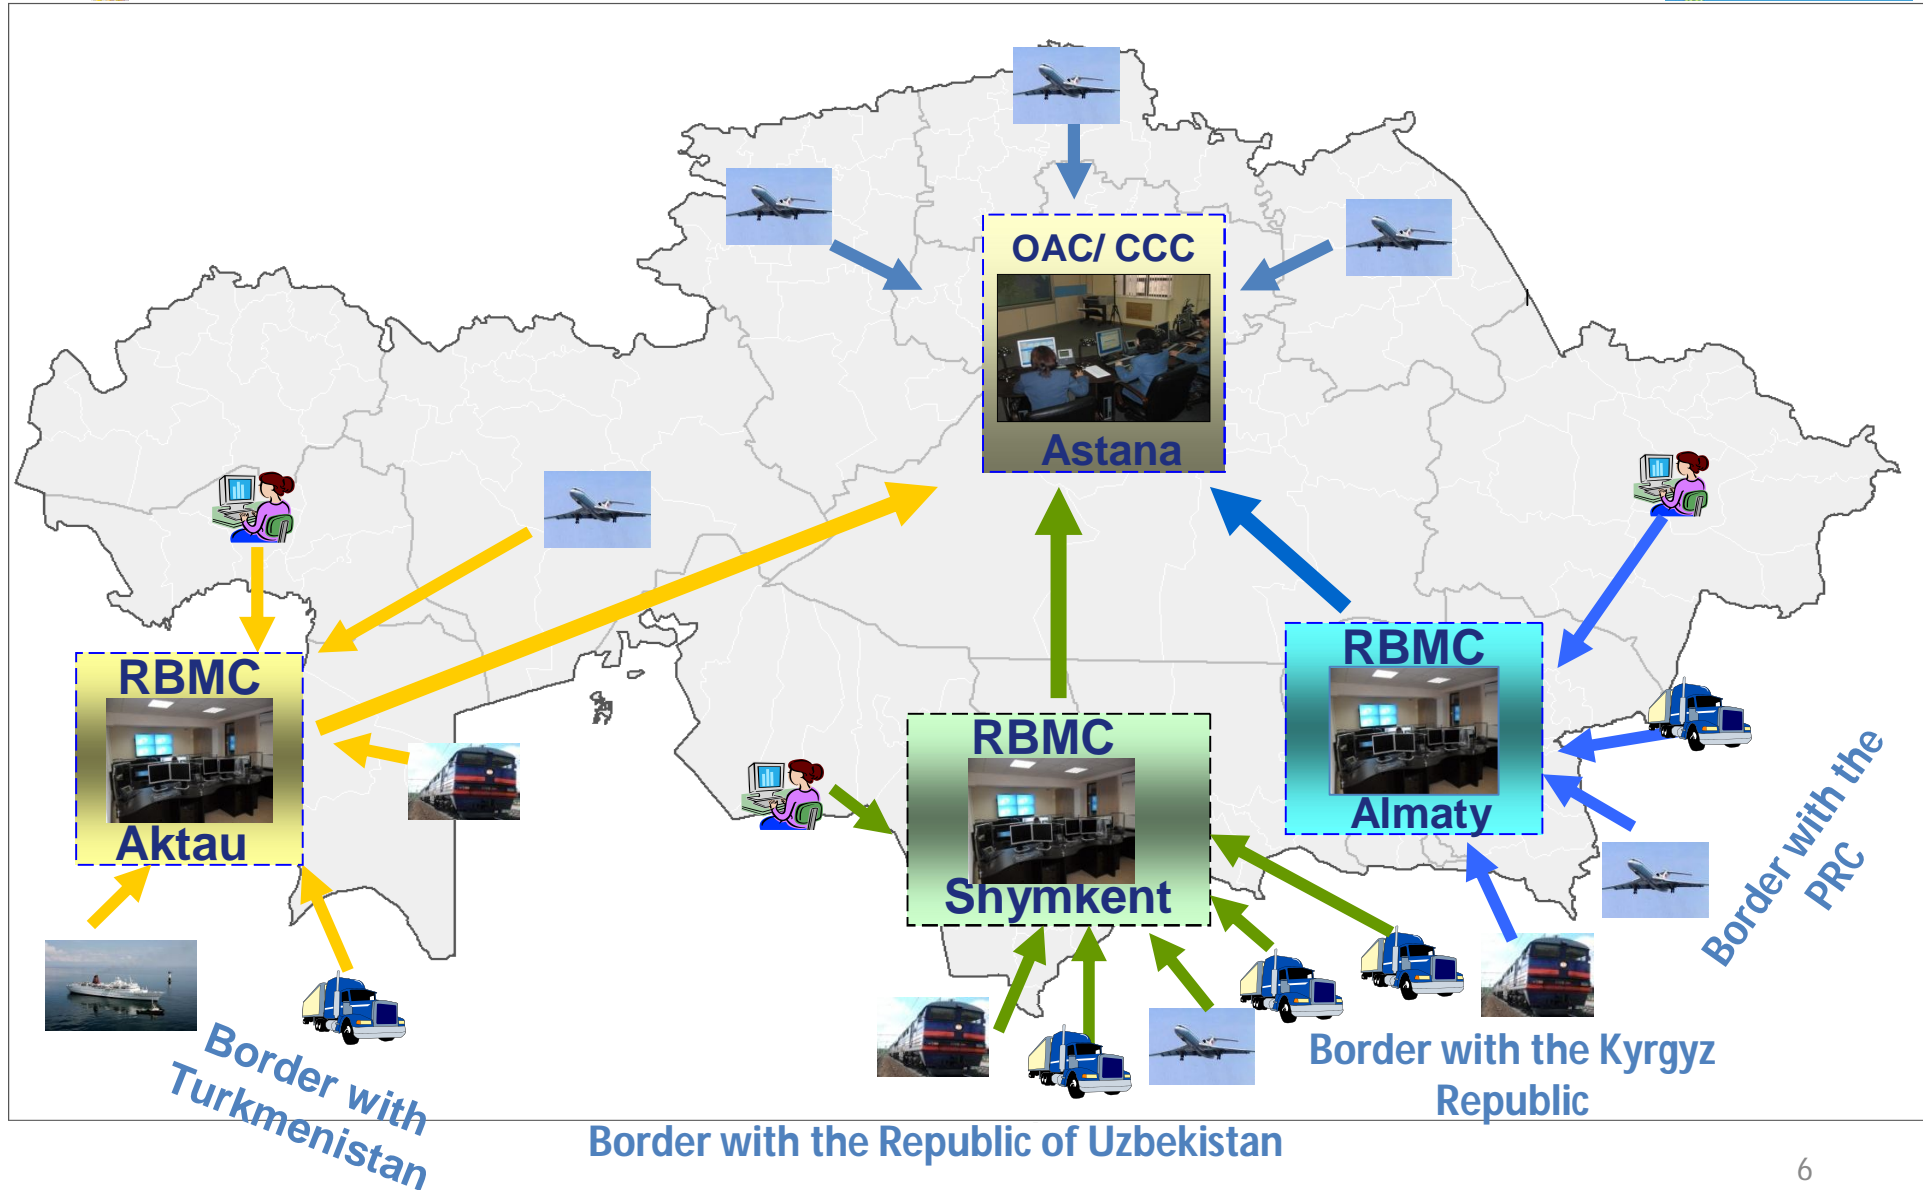

OAC/ CCC of MoF

Information is sent to OAC of the CCC

# Location of regional border monitoring centers

# Outputs

- **Using information technologies to control the customs transit procedure**
- **Customs control equipment is integrated in a single soft- and hardware complex**
- **Prompt provision of advance information**
- **Reduced time and financial costs of traders**
- **Elimination of the human factor impact**
- **Implementation of the integrated border management principle, reduced time for BCP crossing and risk of corruption-related offences**

**Thank you for your attention!**
