

Electric Vehicle

Elaboration of the document for moving towards more energy efficient transport, namely electric and hybrid cars.

Strategy of Moving on Green Transport

- Strategy is made for whole country. Not separately for cities or regions.
- The risk management issues are included. (utilization of batteries etc.)

Floating Solar

installation of floating solar panels on the HPP “Engurhesi’s” water reservoir.

- Installed capacity 50-100 kvt.
- Enhance RE utilisation.
- Promotion tourism in the valley of energy.
- Awareness raising.

Energy Efficiency EE & RE for Anaklia port.

- EE measures in Poti Port administration building.
- Solar street lightings for Anaklia highway.
