

19th CAREC Ministerial Conference, 7 December 2020 (Virtual Format)
"People-Centered Regional Cooperation in the Post-COVID Environment"
CFCFA's Statement

"Taking into account the current situation of the CFCFA, as well as the economic condition of its members against the background of still continuing pandemics COVID-19, the new leadership of the CFCFA appeals to all the participants of the CAREC MC, taking into account the participation of the high level management of ADB at this event, and urges them to consider issues of future support to the CFCFA under the ADB TA.

As we all know, transport and logistics services are one of the main components in the process of economic integration of the CAREC region, and which is ready to unite its efforts around the created site as CFCFA, aimed at the development of transport corridors, the development of new standards, the final product, which is a high-quality provision of transportation processes and simplification trade in the CAREC region.
