TURKMENISTAN PLANNED CAREC ROAD PROJECTS

ADDRESSING ROAD SAFETY ISSUES AND THEIR COORDINATION

- ✘ Road safety issues are the responsibility of the Road Police Department of the Ministry of Interior of Turkmenistan.
- ✘ Regular workshops are held, as well as meetings with participation of representatives from the ministries of road transport, education, health and medical industry, the Mol and specialists of the National Red Crescent Society of TurkmenistanТуркменистана.
- ✘ The National Road Safety Program in Turkmenistan for 2015-2017, as well as the implementation plan for this program have been approved
- ✘ Currently road safety activities are financed from the state budget.

CAREC CORRIDOR ROADS

- ✖ The length of CAREC corridors in the country are:
Farap – Turkmenbashi – 1,224 km, and Farap – Sarakhs – 452 km.
- ✖ The volume of road freight traffic along the mentioned CAREC corridor sections has increased significantly in recent years?

SAFER VEHICLES

- ✘ Currently a system for vehicle inspection is operating under the Diagnostics Center of the Road Supervision Police Service.
- ✘ The Diagnostics Center is regularly improved by being provided with modern high-tech equipment.

Thank you for your attention!
