

# Climate-related activities delivered by countries

CAREC WGCC Meeting | Bishkek, 7-9 April 2025

# Background

---

- Questionnaire sent for information on climate-related projects
- Implementation and pipeline, national and regional, adaptation and mitigation activities by CAREC countries
- Info received from AZE, GEO, KAZ, KGZ, MON, TKM, UZB (need info from PAK, PRC, TAJ)

# Projects

## **Adaptation (some of these are in the pipeline)**

### **Caspian Sea (AZE, TKM):**

Blueing the Caspian Sea, Water management, forecasting, climate resilience and livelihood of population of the coastal zone, GEF, 2026-30

### **Central Asia**

Regional project on "Climate Risk Management in Central Asia" (KAZ, KGZ, TAJ, TKM, UZB) GIZ, 2022-26

RESILAND, Resilient Landscapes in Central Asia, 2024-29

### **KGZ-Regional**

Improving water services that are resilient to climate change, WB, 2022-28

Building resilience to climate change by introducing innovative smart flood and drought management techniques in Central Asia, 2024-27

### **KAZ-regional**

Technical assistance and technology transfer, early warning systems, 2030 fundraising

Most projects are national or subregional (DRM, NAPs, EWS, etc.)

## **Mitigation**

Black Sea submarine cable AZE, GEO, GSE, World Bank, etc. 2030

Mostly have national focus

# Discussion

---

## **Other regional projects in the pipeline**

CSPPF ideas

We will add remaining information as you send it (do you also need to share questionnaire with MOE, MOF, and countries that have not submitted?)

How to share information on planned projects, implementation results, lesson learnt via the CAREC regional platform?

Thank you for your attention!
