

MINISTRY OF DIGITAL DEVELOPMENT
AND TRANSPORT
OF THE REPUBLIC OF AZERBAIJAN

SELECTED PROJECTS IN TRANSPORT AND LOGISTICS SECTOR OF AZERBAIJAN

April 2024

Selected projects in transport and logistics sector of Azerbaijan

Ports and Terminals

1 Port of Baku

Development in the Port of Baku will increase total throughput capacity to 25M T of general cargo from 15M T.

2 Air Cargo Terminal

New cargo terminal at Alat FEZ with a new runway for cargo carriers

Logistics

3 Logistics Center

5 new logistic centers are planned to built in Azerbaijan
Construction work of the Astara terminals module continues, several modules of the terminal are already kicked off

Railways

4 Nakhcivan-East Zangazur

Modernization & construction works in Nakhchivan-Karabakh railway line to be connected Azerbaijan with Nakhcivan Autonomous Republic.

5 Passenger trains

A new passanger trains Stadler FLIRT to be purchased to alleviate traffic load in suburban Baku (metropolitan area)

Airports

6 Airport facilities

Airports in the recently liberated areas to be built i.e Lachin airport (commission: 2025)
Opportunities around Zaqatala, Ganja, Gabala, Lankaran airports to more effectively leverage them (specifically for tourism)

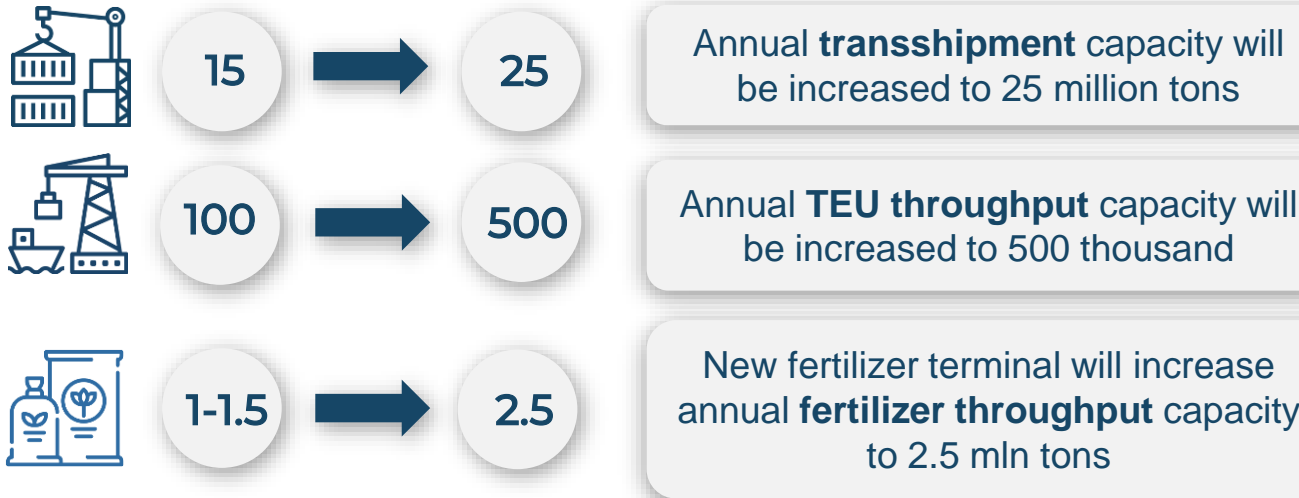

Roads and Urban Transit

7 Transition to e-vehicles

As EVs improve fuel economy, lower fuel costs and reduce emissions, we are heading to install EV charging infrastructures and purchase e-busses for public transport

1- 2nd phase development of Port of Baku

Wheat terminal is planned to be built

2- Air Cargo Terminal in AFEZ

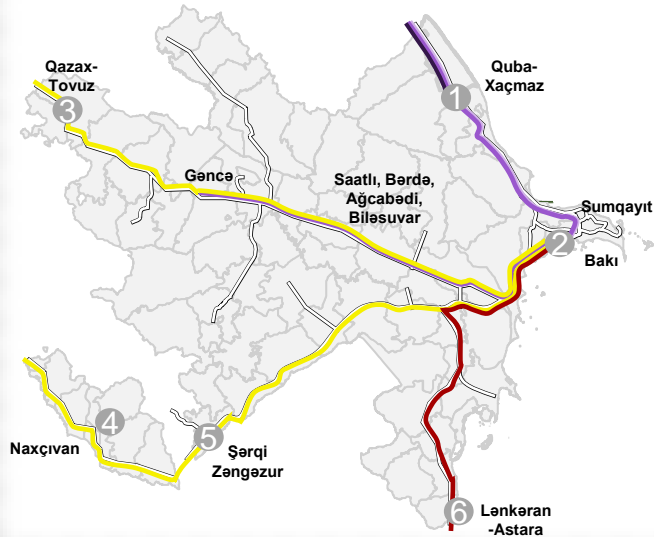

Regional link between continents by strategically connecting the airport, seaport, railway and highway.

Logistics

3- Logistics centers (+Astara Terminal)

Up to 50%
Saving in export costs

11.5 K
Employment

To create more efficient logistics for domestic and export cargo transportation, it is proposed to consolidate exports into several logistics centers and route them via trains.

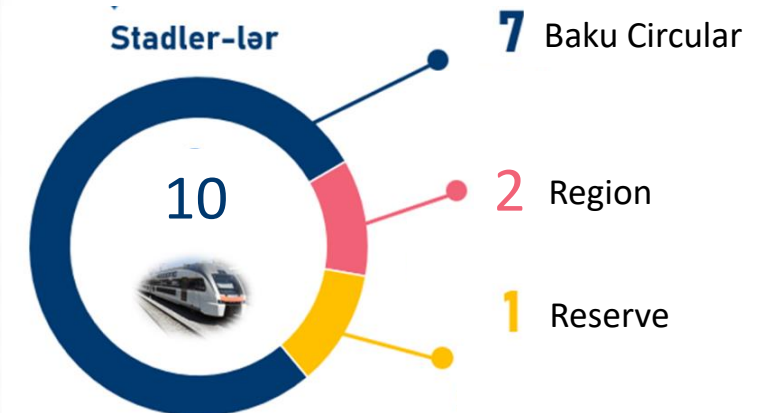

Railway

4- Railway connecting East Zangazur w/Nakhchivan

- has clear potential to become a **faster and shorter transit passage for Europe and Asian countries**
- can create additional opportunities for increasing the potential of the Middle Corridor in the East-West direction within the framework of **China's One Belt One Road initiatives**
- may enable **the diversification of routes and trade routes**

5- Passenger Trains

*Bakı-Gəncə-Bakı qatını hər gün əlavə 2 reys Bakı-Sumqayıt istiqamətində icra edəcəkdir.

Airport

6- Newly-built airports in liberated areas

9

Number of operating airports

8

of which have the status of "international airport".

2

Number of airports commissioned in liberated areas (last 3 years)

- Zangilan
- Fuzuli
- Lachin (expected in 2025)

7- Transition to electric vehicles

Currently, there are only 20+ public EV charging outlets in Azerbaijan

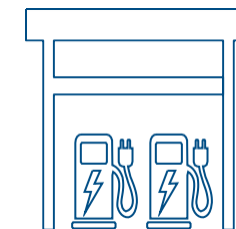

Required investment to be decided based on selected archetype and rollout program/location

- Number of stations – 1,000
- Cost per station - AZN 40,000

Potential public charging station archetypes to invest in Azerbaijan

Supermarket station
22 kW AC/50 kW DC

Pit-stop station
100-150kW DC

Highway station
150-350 kW DC

Roads and Urban Transit
