Traditional Cross-Border Payment Methods Fail to Meet the Needs of Small-scale High-frequency Fund Collection and Payment Scenarios

Difficult to operate

Cross-border collection requires
merchants to open bank accounts
overseas which is complicated

**High cost** 

CBECs trade with small volume and high frequency, fund collection and it is not cost-effective to use the traditional international remittance system

**Low transparency** 

Fluctuation of exchange rate and fee factors cause the low transparency in cross-border funds

Hard to guarantee timeliness

It takes longer to do cross-border collection and payment through traditional channels
