**LEGEND:**

-  National Capital
-  City / Town
-  Border Town
-  Regional Road Transport Corridor
-  Regional Railway
-  Main Corridors

# Implementation

- Sustainable and efficient management of CAREC Corridors and BCPs;
- Encourage use of multimodal transportation;
- Promote private sector investments in building logistics centers and inland container depots; and
- Mobilize resources to upgrade logistics training in the region and to create a regional professional certification program
- Assist in creating a regional transport & logistics database

# Goals

## RJC

- enhance member countries' collective ownership of CAREC joint transport and trade facilitation program
- serve as focal point
- assume responsibility for coordinating & supervising major CAREC transport & trade facilitation projects
- establish links with counterpart bodies & sponsor regional forums

## CFCFA

- provide feedback to CAREC governments on TTFS Action Plan implementation
- advance public-private partnerships
- develop standardized transport documents and standardized carriage contract
- build IT platforms to facilitate trade and transport
- raise competence of trade & transport operators

# Thank you!
