

ACTIVITIES OF CUSTOMS BODIES OF THE REPUBLIC OF UZBEKISTAN TO IMPROVE CUSTOMS ADMINISTRATION

GOALS AND OBJECTIVES OF CUSTOMS ADMINISTRATION REFORM

Key areas of the Concept

- further **improvement of the customs regulatory and legal framework** with implementation of international standards;
- **Development of the institutional framework** for customs activities and infrastructure facilities with optimal use of available resources and funds;
- **ensuring transparency and efficiency** of customs activities through the introduction of modern and advanced information and communication technologies in customs under the digital economy;
- **Improvement of the fiscal function** of customs authorities, simplification of tariff and non-tariff regulation of FEA;
- **combating smuggling** and violations of customs laws;
- **training, retraining and further refresher training** and improvement of the customs officials skills, strengthening their social protection;
- **further development of mutually beneficial cooperation** with international organizations and customs services of foreign countries.

January

February

March

April

May

June

3 1

✓ **shorter customs clearance time** (it is planned to reduce *from 3 days to 1 day depending on the risk level*);

✓ **Improvement of the risk management system** (*is implemented at road and rail border customs posts*);

✓ **Introduction of new technologies** (use of modern types of customs control, GPS-monitoring, electronic seals);

✓ **Implementation of international norms** (There are plans to join the revised Convention on the Simplification and Harmonization of Customs Procedures (Kyoto, February 3, 2006) and the Convention on Temporary Admission (Istanbul, 1990).).

Kyoto Protocol

✓ **Implementation of the electronic mobile services** (*3 additional services are implemented*);

✓ **Customs clearance automation** (*The automatic release system with the establishment of target indicators, in the first stage - for exports, and later for imports is implemented*);

July

August

September

October

November

December

- **Application of a transit declaration** (the control book for cargo deliveries will be replaced with the transit cargo customs declaration and the automated information system «E-TRANZIT») was introduced;

- **Improvement of the customs warehouses operations** (envisages the adoption of procedures regulating the relationship between customs authorities and owners of customs warehouses);

- **Improvement of the financial guarantees system** (envisages the adoption of legal acts to simplify the application of financial guarantees, the use of electronic guarantees);

- **Assessment of the customs officers' performance** (the introduction of a system for assessing public services provided is envisaged).

- **Pre-trial settlement of disputes** (settlement of disputes and conflict situations between customs authorities and participants in foreign economic activity by creating a special commission, which involves traders);

IMPROVING THE LEGAL FRAMEWORK

The following were implemented:

- ✓ simplified declaration procedure
- ✓ application of a risk-based approach to customs clearance procedures
- ✓ procedure for periodic and preliminary declarations
- ✓ procedure for the recognition of certificates of conformity by the OECD member countries, ILAC, IAF
- ✓ opportunities to pay customs duties through mobile applications
- ✓ procedure for registration of **perishable goods** on a priority basis (out of turn at the border posts)
- ✓ procedure for passage through the checkpoints not exceeding **30 minutes** for trucks and **15 minutes** for cars
- ✓ procedure for checking vehicles exclusively by customs authorities
(the overlapping functions on the checks by border guards were eliminated)
- ✓ **simplification** of the **compliance** assessment procedure (certification)
- ✓ implementation of international norms through accession to international conventions
- ✓ procedure for automatic registration of customs cargo declarations
- ✓ procedure for automatic distribution of cargo customs declarations among the employees

DIGITAL CUSTOMS DEVELOPMENT STRATEGY

EFFECTIVENESS
Time required has been reduced from 2-3 days to 10-15 minutes
The detection system increased from 57% to 97%

DETECTABILITY
26,250 infringements for amount of 557.5 bln. Sums

BODY SCAN
8 facts 6.3 kg. narcotics
22 facts 2.2 kilograms of jewelry

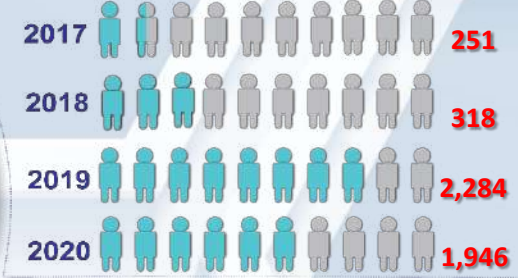

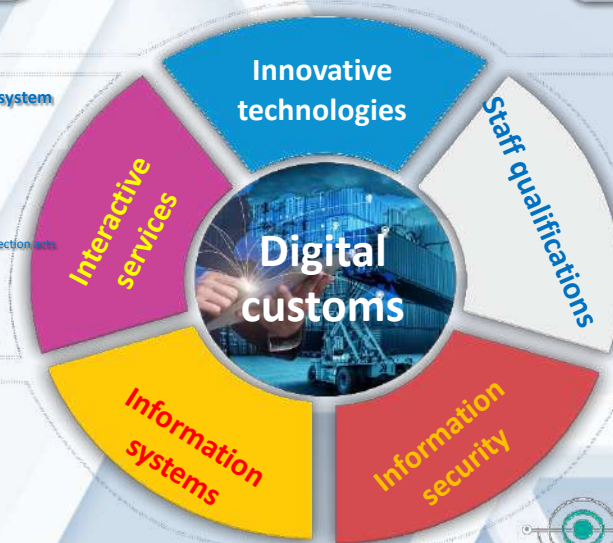

CIC
173.53 kg of narcotics

in 2021

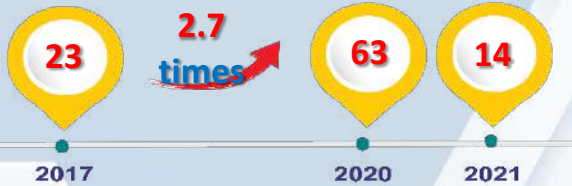

- 3 units Z-Portal
- 2 units CIC
- 10 units Radiation portal monitors
- 37 units Telecommunication equipment
- 10 units License plate recognition systems
- 5 units Body scanner
- 4 units Server equipment
- 30 units Metal detector
- 10 units Motor vehicle scales
- 20 units channel transmission accelerators

- Time release monitoring system (TRS)
- FEA step-by-step
- TIR Carnet
- New SCC website
- Mobile version of the system / inspection acts
- Introduction of new interactive services

4,99 employees were trained
2021 2,000 employees will attend trainings

Declaration registration 100% Electronic document flow	Declaration auto release When exporting without an employee 2000 issued declarations	Single window permits Connected: 6 organizations 21 types of permits More than 850 thous. permits issued	Integration mutual information sharing Russia, Kazakhstan, Tajikistan, Azerbaijan, Afghanistan, Belarus
--	--	--	---

in 2017

- Monitoring of cybersecurity attacks was conducted
- 111 units Telecommunication equipment has undergone examination
- Certification of the SCC facilities for cybersecurity
- Improving the information databases for security purposes
- Mutual exchange of information with customs services of **Ukraine, India, Iran**

in 2021

- Regulatory framework for information security
- 100% use of certified EDS cryptographic keys
- 100% facilities have undergone an information security review
- 100% computers, servers are provided with licensed antivirus operating systems
- The SCC web-site was examined for information security
- Implementation of the DLP system
- Conducting monitoring on cybersecurity

DIGITALIZATION OF CUSTOMS BODIES

In 2021, the state customs committee took the **1 PLACE** among **64** organizations in the nomination **the best IT unit**

State Customs Committee
Republic of Uzbekistan

To ensure control and application of data in the information exchange, the SCC Automated Information System (AIS) “**Monitoring of cooperation of the State Customs Committee with other ministries and departments**” was established.

The purposes of this automated system include:

- control of effective use of data in the process of creating the “**Simplified Customs Corridor**”;
- **control of effective the use of the preliminary information in the customs clearance process**;
- continuous monitoring of completeness of data exchanged in the SCC AIS “Monitoring” of the SCC.

Ukraine India Iran

Work is currently underway to provide information exchange with other foreign customs services.

БЮД тўғрисида маълумотлар:

БЮДнинг рўйхат рақами: 26002/07.07.2020/00000521

БЮДнинг мақоми: Расмийлаштирилган

БЮД йўналтирилган йўлақ: Қизил йўлақ

Божхона кўришга сарфланган вақт: 02:02:07

Божхона расмийлаштируви учун сарфланган вақт: 02:45:08

Ундирилган божхона тўловлари тўғрисида маълумот:

Тўлов турини	Ставка	Сумма
Божхона бож	20%	38 000 000
Акциз солиғи	15%	28 500 000
Қўшилган қиймат солиғи	15%	28 500 000
Божхона йиғимлари	0,2%	3 800 000
БЮД бўйича жами тўловлар (сўм)		98 800 000

- Кўшимча ҳужжатлар талаб килинди!
- Божхона қиймати бўйича эътирозлар мавжуд!
- Имтиёزلарни қўллаш бўйича эътирозлар мавжуд!
- Божхона расмийлаштируви учун кўп вақт сарф этилди!
- Божхона ходимининг касбий малакасига эътирозлар мавжуд!
- Божхона ходимлари муомала маданиятига эътирозлар мавжуд!
- Товарларнинг ТИФ ТН кодини белгилашга доир эътирозлар мавжуд!

Таклиф ва эътирозларим шундан иборатки, ...
