

CROSS ROAD INTERSECTION ON BISHKEK-KARA BALTA ROAD

**10 CRASHES, 4 DEATHS,
17 INJURIES IN 2017**

**WHAT CAN WE DO TO REDUCE
THESE CRASHES?**

My recommendations:

1. Re-mark all lines with thermoplastic
Install advance direction signs on main road 100m in advance
Add street lighting at intersection
2. Traffic signals (as part of the duplication)
3. Make sure pedestrian signals with push buttons are included
4. Kerb extensions
