

Single Window Initiative – Mongolian Customs

**The Ninth Customs Cooperation
Committee Meeting**

**Tokyo, Japan,
06-10 September, 2010**

Contents

- **Why we need Single Window**
- **Trade facilitation performance**
- **Current situation**
- **Legal framework**
- **What we need?**
- **Questions to delegations**

Why we need Single Window

Business sector

- High transaction costs
- Time management
- Difficulty to get to market

Public sector

- Complex regulations
- Lack of transparency
- Difficult monitoring
- Complex legal environment

Decreased national competitiveness

Trade facilitation performance

Ranking among 181 economies

Year	2008	2009
Mongolia	149	156

Source: World bank: Doing Business 2010(www.doingbusiness.org)

Legal framework

- **Government resolution 251(2006) on SEW Working group**
- **National program on SEW approved by Government-2007**
- **SEW action plan for 2007-2008**
- **Joint working group with Chamber of Commerce, etc... but no tangible results**

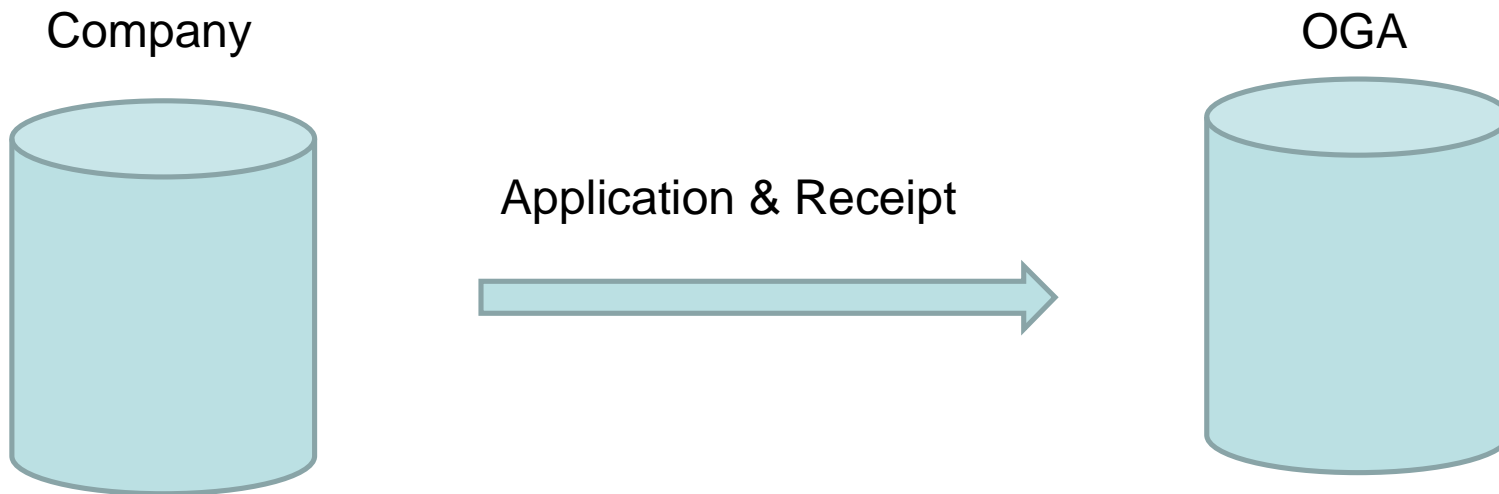

Current situation

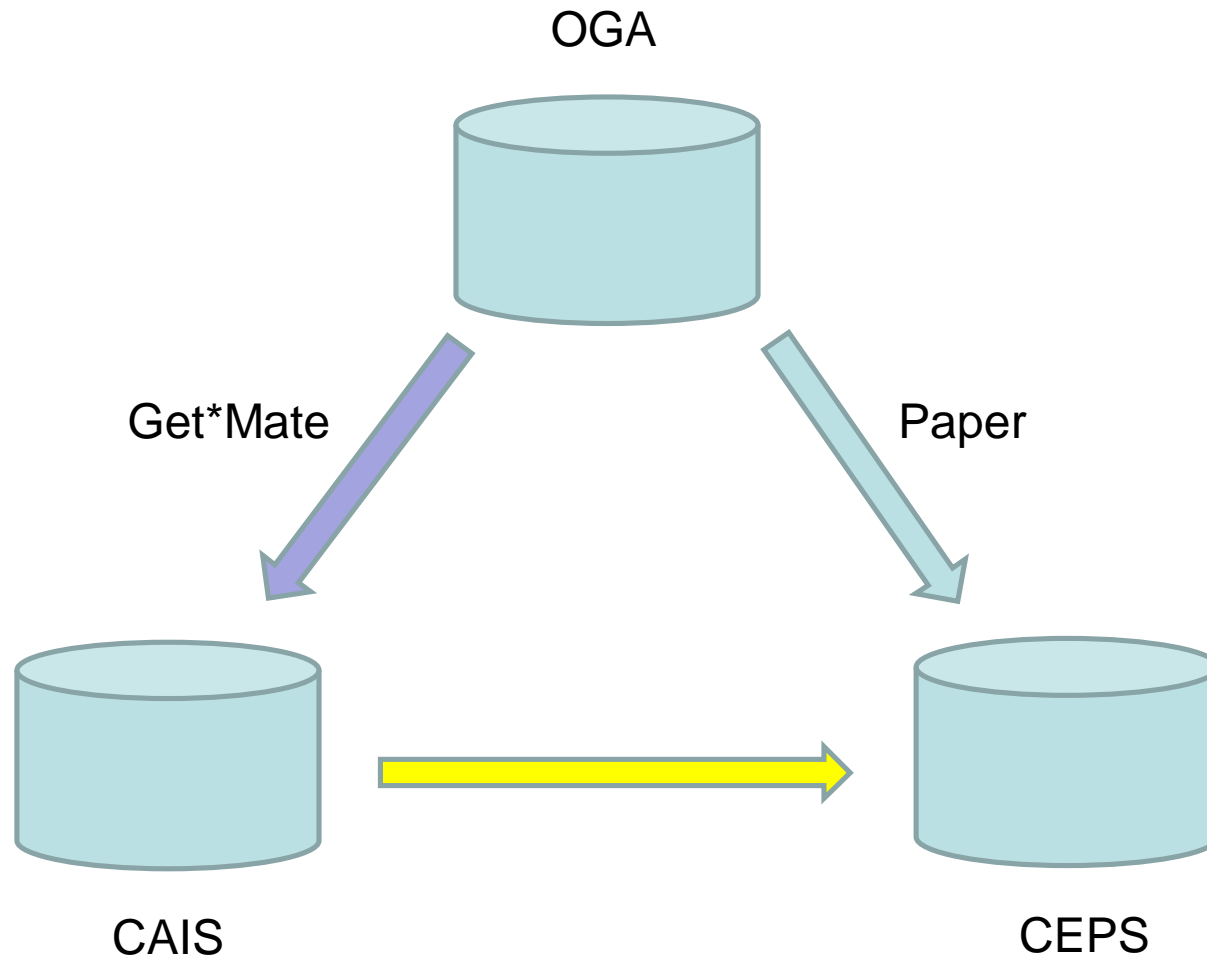

- **MCGA: CAIS in operation, possibility to exchange of e-documents**
- **Seminars: ESCAP etc....**
- **Pilot testing: MCGA-Ministry of Nature, Environment & Tourism on exchange of e-documents**

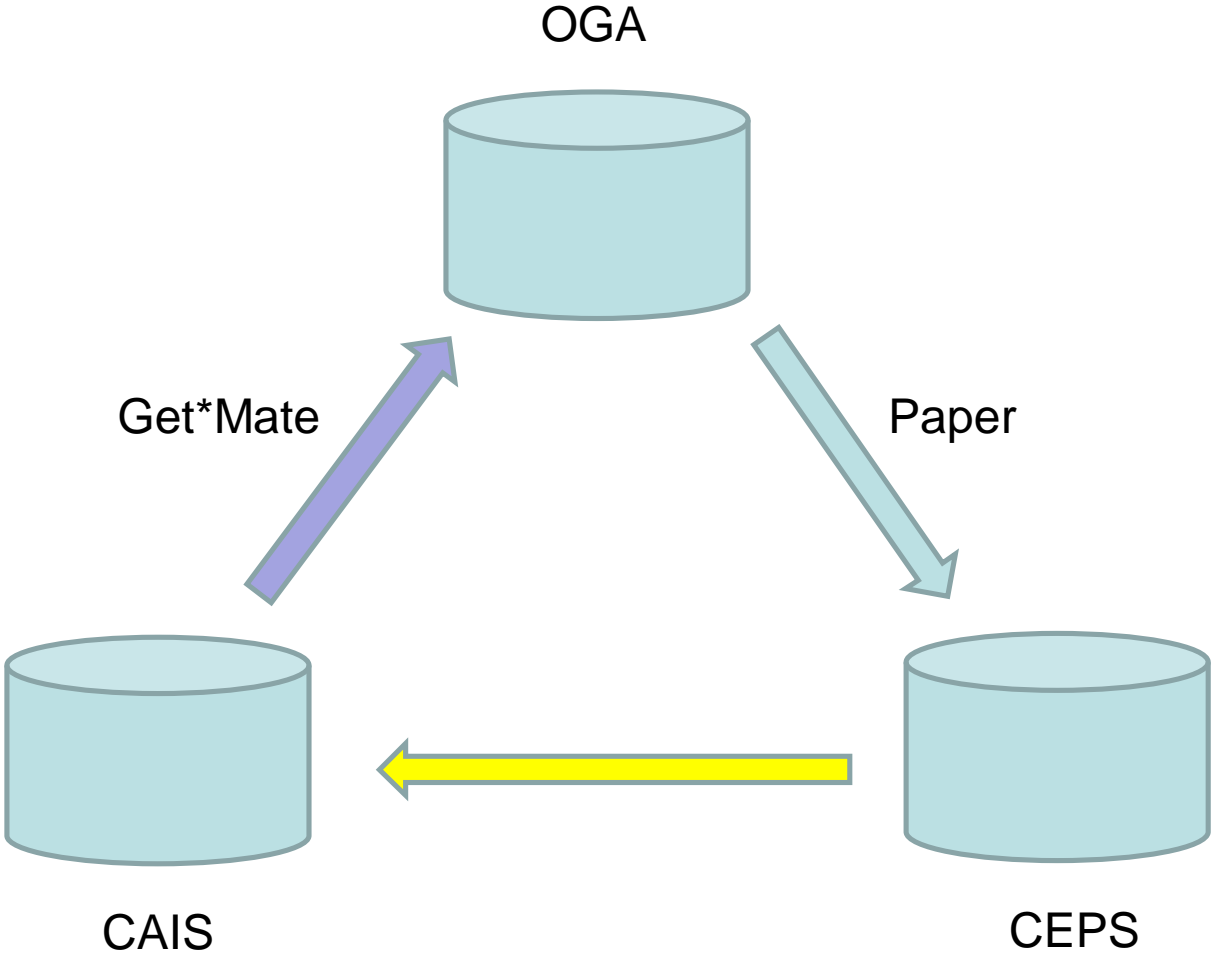

Application & Receipt

Certification from OGA

Feedback from Customs

What we need

- Feasibility study and Master plan for SW
- Legal environment for IT
 - Draft package law on IT:***
 - ***Digital Signature Law***
 - ***Information Security Law***
 - ***e-Transaction Amendment on the Civil Code***
 - ***Data Protection law***
 - ***e-Commerce Law and others***
- Financing

Questions to delegations ?

- How to apply Customs data model v.3?
- How to exchange E-documents?
- How to manage E-documents /ebms,etc/?

Thank you
