KEY POINTS

- Tesla CEO Elon Musk and Mongolia's prime minister on Monday talked about potential expansion and investments in the Asian country.
- "They discussed the possibility of welcoming Tesla to Mongolia for its electric vehicles battery factory, leveraging the country's wide availability of copper and rare earth elements, which are essential components of electric cars' batteries," according to a statement.
- They spoke about bringing Starlink, a satellite communications terminals and services provider operated by the Musk-founded SpaceX, to Mongolia.

Google and the government of Mongolia have struck a new partnership to bring digital devices and training to Mongolian classrooms, as the East Asian country, sandwiched between China and Russia, seeks to strengthen ties with the US.

Under the plan, 20,000 new Chromebook laptops will be supplied to Mongolian teachers and provide training for 10,000 of them, promoting proficiency

The New York Times

Why Are So Many Millennials Going to Mongolia?

In an era of Instagram tourism, some young people are searching for less curated travel experiences. So they're flocking to the open spaces of this East Asian nation.
