Road Crash Data Review and Reporting Training on improvement to crash data management Istanbul - 25-27 June 2024

PROJECT PRESENTATION

Antonino Tripodi

Road Crash Data Management Expert
FRED Engineering

Consultancy objective

- To **document current crash data management practices** in CAREC countries and identify recommendations for improvements
- To establish in the CAREC region a basis for a **harmonized data management system, information sharing and a coordinated approach** to road safety

Document current crash data management practices in CAREC

Identify recommendations for improvements

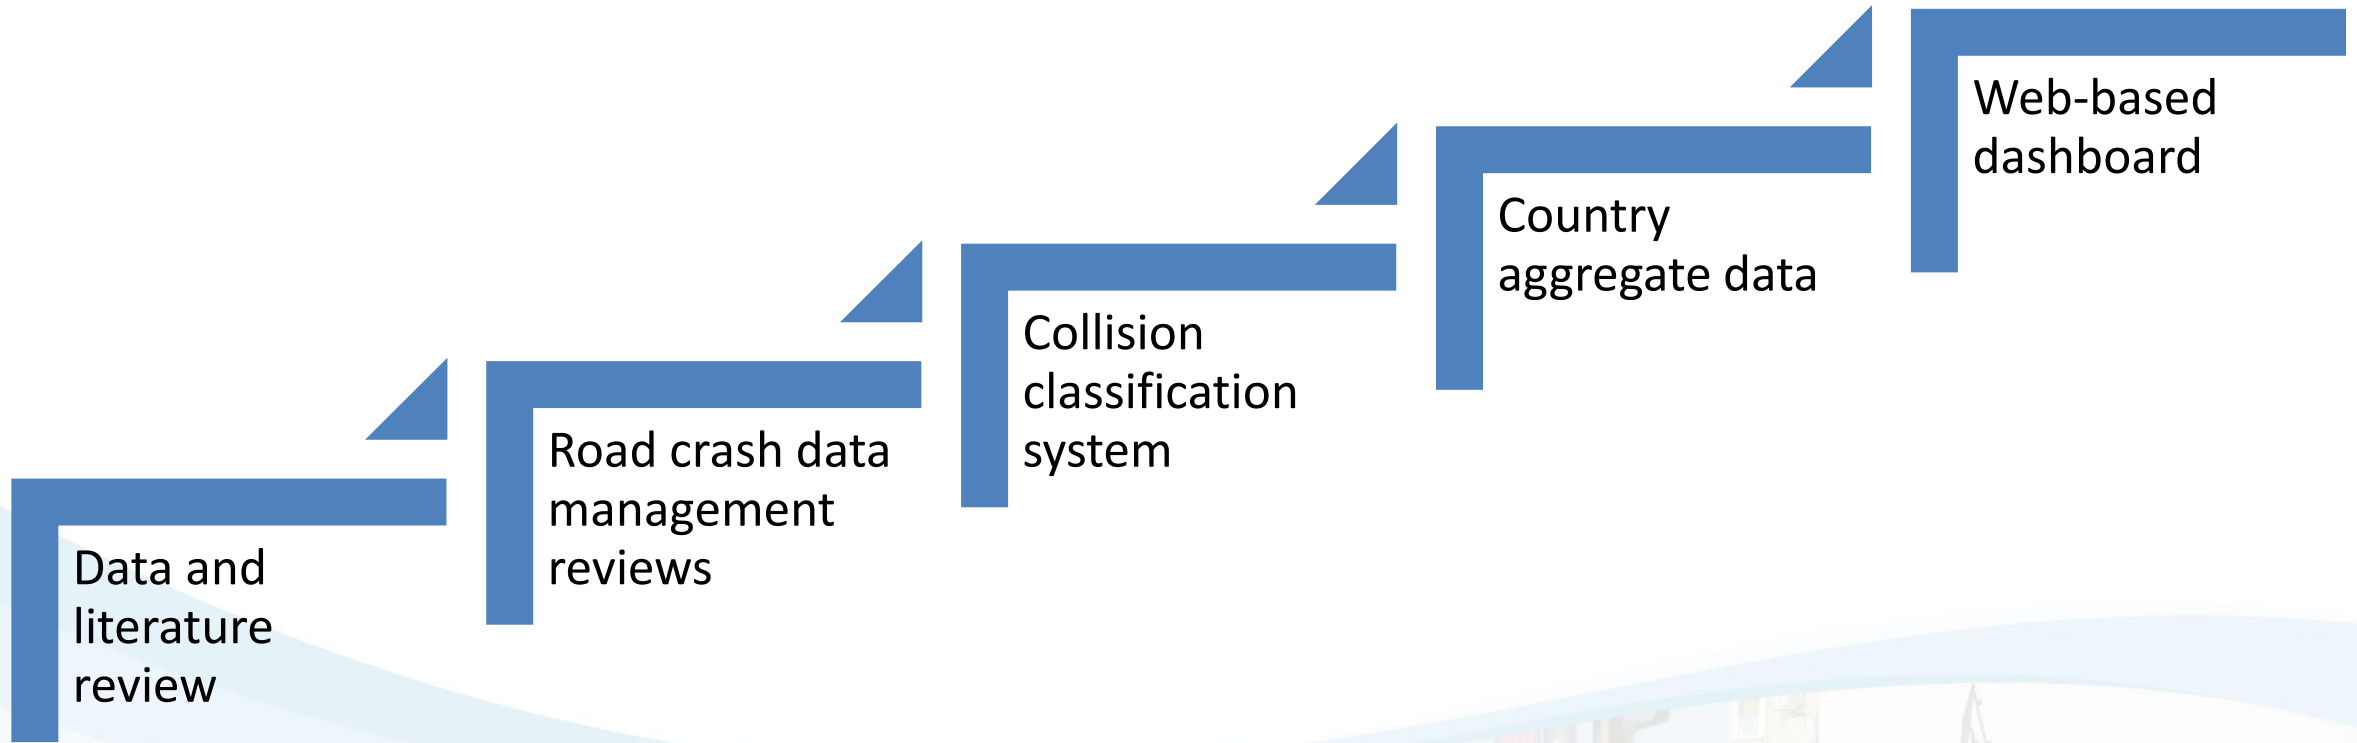

Establish a basis for a harmonized data management system

Informed, shared and coordinated approach to road safety

CAREC countries involved

Project activities

Road crash data management reviews

- Selection of key stakeholders charged of:
 - Road crash data collection
 - Follow-up of crash victims
 - Decision-making on road safety interventions
- Consultations with key stakeholders on:
 - Road crash data collection
 - Storage, processing, use of road crash data
 - Other road safety data
 - Data analysis

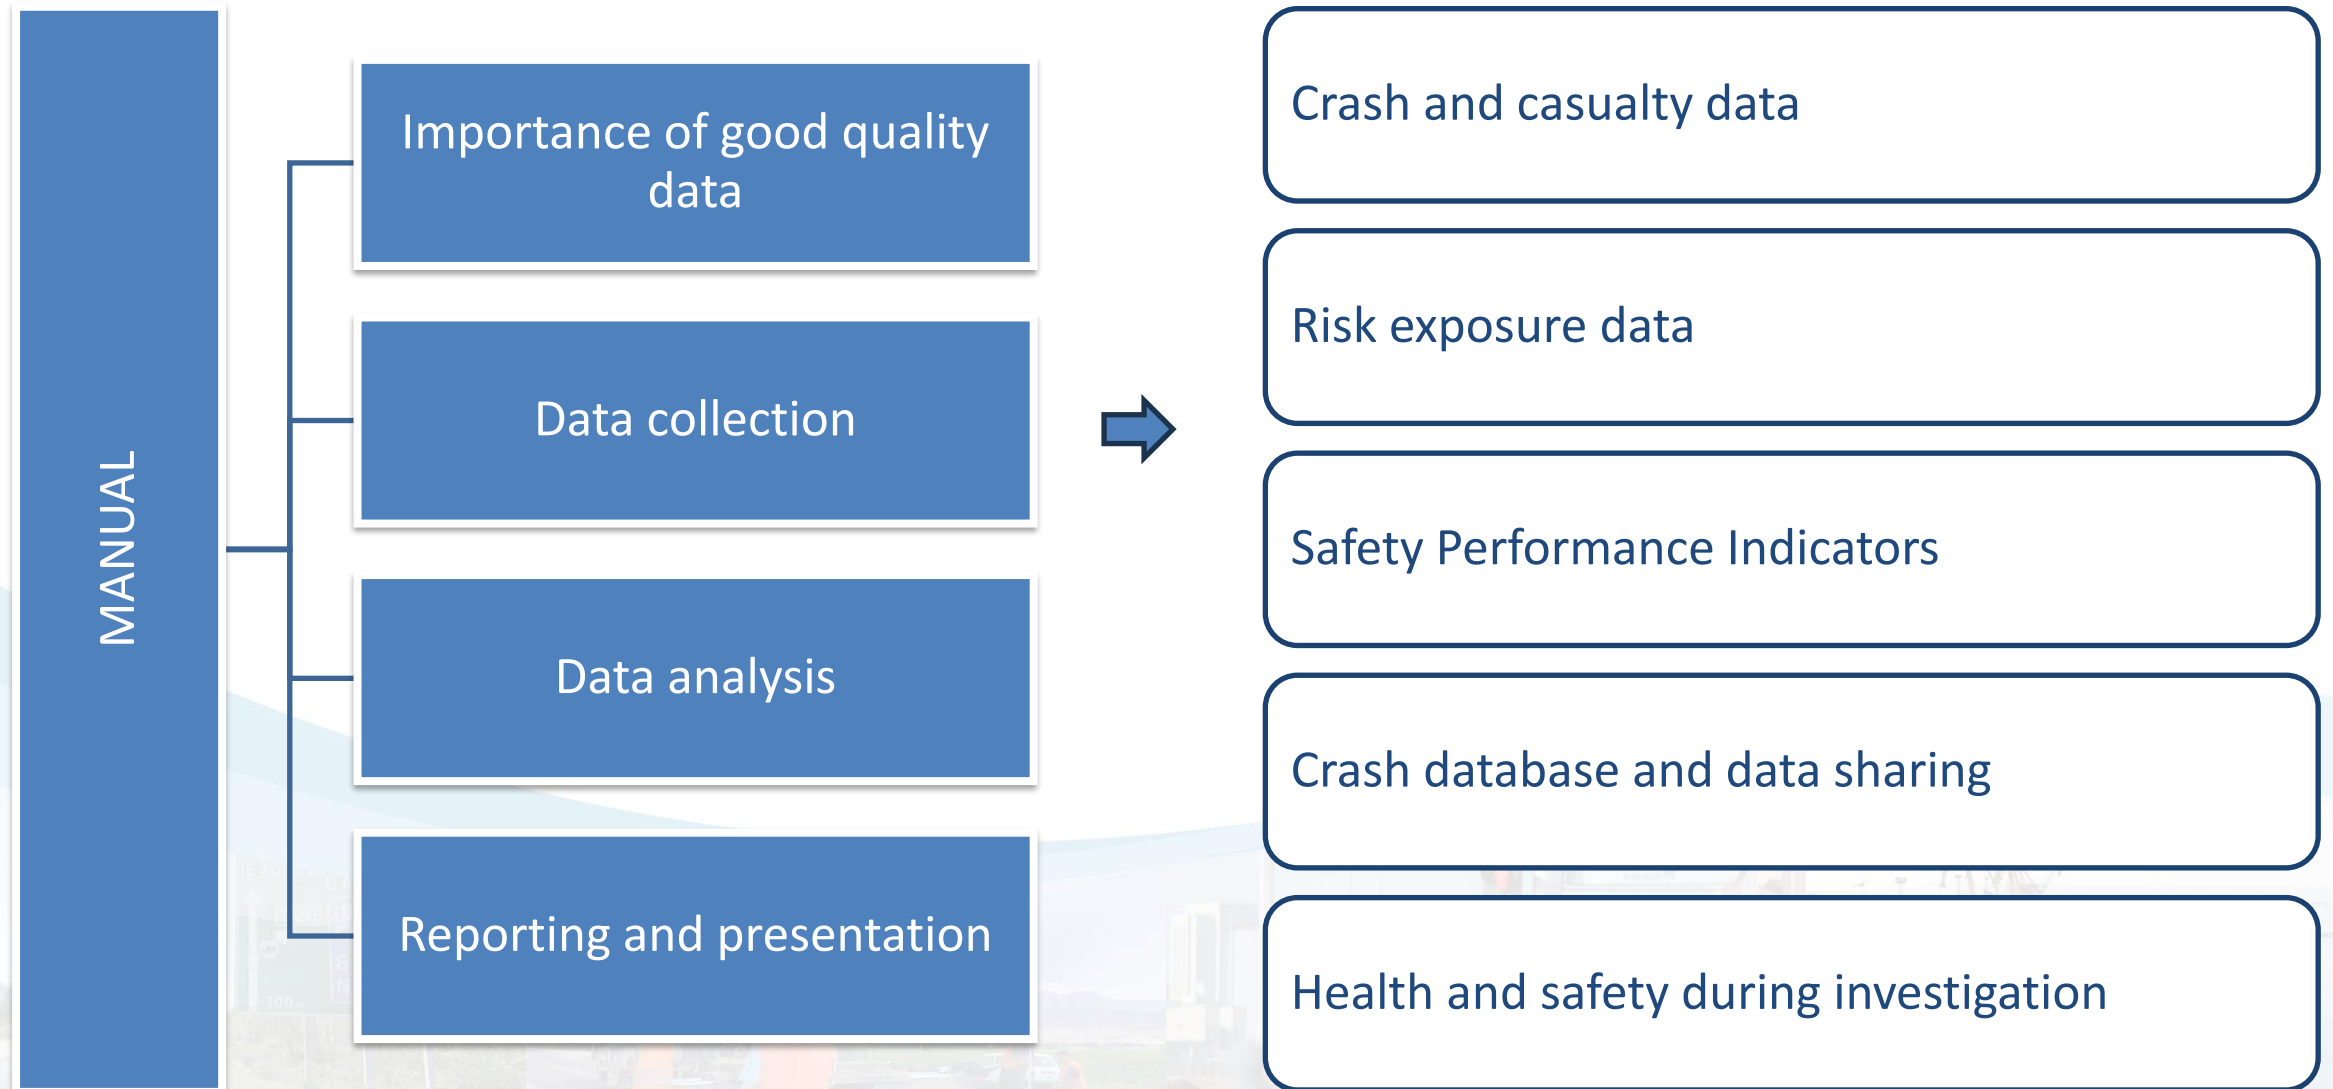

- Assess differences compared to best international practices
- Provide tailored recommendations to harmonise road crash data management in CAREC countries

- Country reports on current road crash data management and recommendations

CAREC road crash investigation manual

CAREC road crash investigation manual

Crash and casualty data

Injury severity definitions

Collision classification system

Crash data collection forms

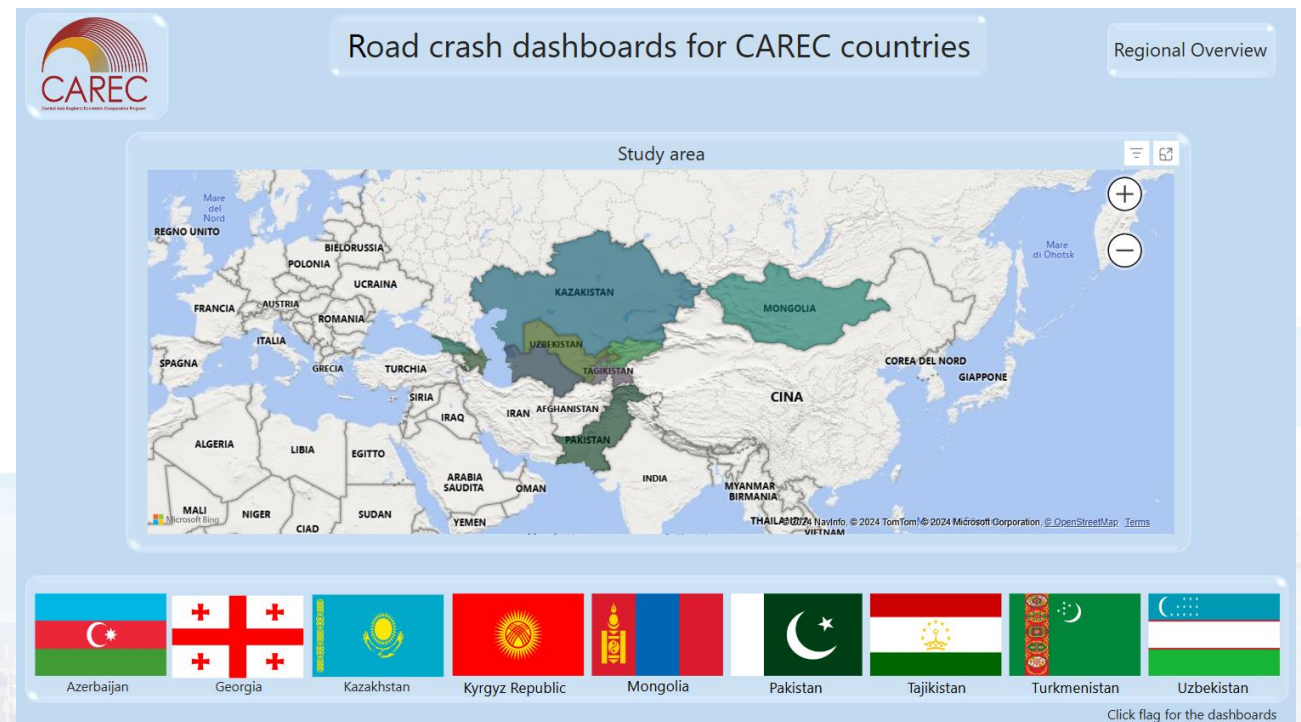

Collision diagrams

Collection of contributory factors

Procedures for crash data collection and investigation

Country data & web-based dashboard

- Road crash data requested to each country
- According to currently used format and practices
- Aimed at preparing online dashboards for visualisation of road crash statistics

Where we are

Task	Status
Report for each CAREC country: current status and recommendations	Completed
CAREC road crash data investigation manual (Draft)	Completed
CAREC road crash data investigation manual (Final)	Review ongoing
Web-based dashboard	Completed
Workshop on road crash data management	In progress
