Contents

1. Chinese policies on economic and trade cooperation with CAREC countries

2. Single window in China

3. Introduction of public platform for economic and trade cooperation

4. Suggestion for single window development in CAREC countries

Chinese policies on economic and trade cooperation with CAREC countries

➔ The strategy of developing the western region

- ➔ The volume of trade between China and the five central Asian countries has increased by 50 times in the past 17 years

➔ New Eurasian land bridge

- ➔ The overall length is 4131 kilometers in China
- ➔ Volume of transit traffic had reached 300 thousand TEUs by 2009

➔ National 12th five -year plan

- ➔ Continuing supporting the economic and trade cooperation with CAREC countries

Single window in China

- **First phase:**
international trade administrations have achieved network management all over the country

Ministry of Commerce

Dedicated network of foreign economy and trade

General Administration of Customs

Clearance network

General Administration of Quality Supervision, Inspection and Quarantine

Commodity inspection and quarantine network

Single window in China

Second phase :

constructing public platform for economic and trade cooperation

- ➔ promoting information intercommunication and business collaboration between:
 - ➔ government and government
 - ➔ government and enterprise
 - ➔ enterprise and enterprise

Introduction of public platform for economic and trade cooperation

➔ Promoting collaboration of information, logistics and finance

Information

- collaboration of regulatory information between government and enterprise
- collaboration of business information between enterprises

Logistics

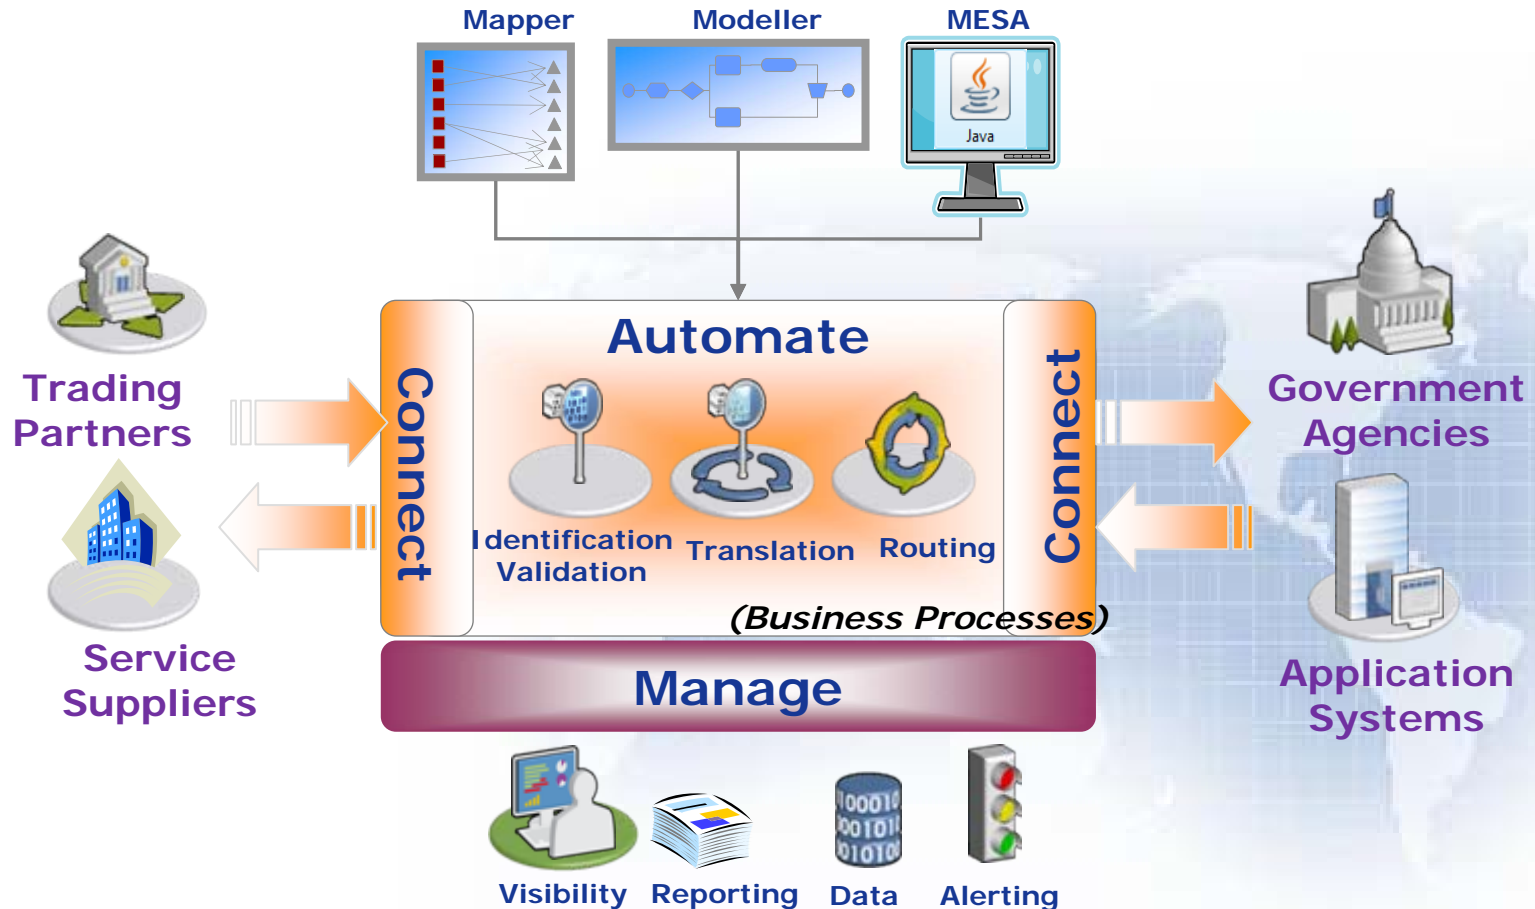

- collaboration of service between consignor and carrier
- collaboration of service between logistics enterprises
- state tracking of cross-regional logistics

Finance

- electronic trade settlement
- global supply chain financing

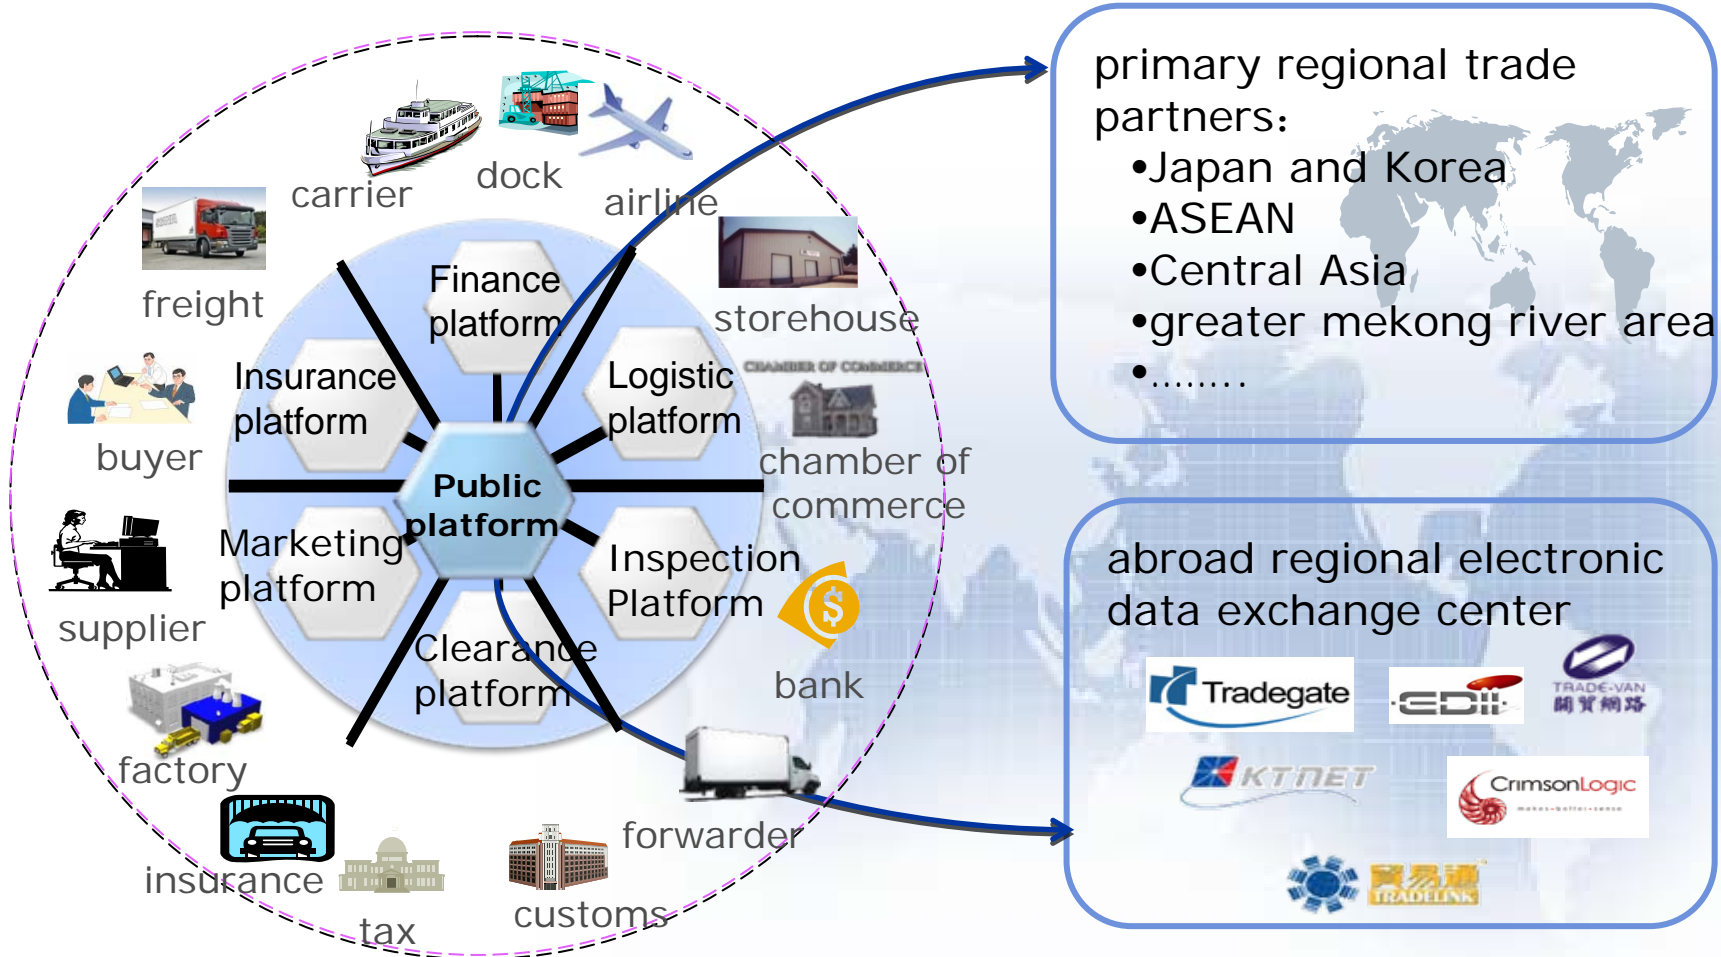

Introduction of public platform for economic and trade cooperation

➔ Framework of public platform

Introduction of public platform for economic and trade cooperation

➔ Application effect of public platform

Suggestion for single window development in CAREC countries

- ➔ CAREC countries expedite the implementation of single window with the aid of ADB
- ➔ CAREC countries make detailed investigation, design and specifications before single window implementation to ensure information intercommunication among CAREC countries, China and other relative countries
- ➔ China is willing to share the experience with CAREC countries

Thank You !
