

**COMMUNICATION FROM THE EUROPEAN COMMUNITIES  
AND THEIR MEMBER STATES**

Conditional revised Offer

*[This is authentic in English only]*

**General remarks**

In line with the decision adopted at the WTO Ministerial Conference in Doha in November 2001, the European Communities and their Member States (hereafter “the EC”), having given careful consideration to the requests submitted by WTO Members, in particular by Developing Country Members, tabled in April 2003 their initial offer in the framework of the ongoing services negotiations under the General Agreement on Trade in Services (GATS) and in the context of the Doha Development Agenda (DDA).

According to the decision adopted by the General Council on 1 August 2004 (“July package”) and in line with the Recommendations attached thereto, the EC, continuously committed to the objectives and principles stated in the GATS, in particular Article IV and XIX GATS, hereby submit their revised offer.

This revised offer, as the initial one, is conditional on other WTO Members making substantive offers in sectors where the EC have made requests. The EC reserve the right to modify, extend or, reduce this offer in whole or in part at any time. The EC’s readiness to confirm this offer will depend on their overall assessment of the acceptability of the outcome of these negotiations. In this regard the EC note that commitments offered in certain sectors or sub-sectors (such as graduate trainees), which are neither committed nor offered by a majority of other WTO Members, are conditional on a critical mass of commitments being achieved in those sectors or sub-sectors

The offer covers horizontal commitments, MFN exemptions, and specific commitments in individual service sectors. This offer is based on a consolidated schedule of the EC-25 and takes into account improvements already made in the initial offer. Introduction of new text is reflected in **bold** and deletion of text in ~~strike out~~. Modifications to existing commitments or to the initial offer are **shadowed in grey**. *Italics* have been used in order to reflect technical refinements that do not alter the scope or substance of existing or offered commitments, such as for example:

- Text moved from one sector or sub-sector to another sector or sub-sector (e.g. rental of vessels with crew moved from business services to transport services)
- Entries deleted because they do not amount to limitations that have to be listed in accordance with Article XVI or XVII of GATS (e.g. non-discriminatory

domestic regulation requirements such as the level of training for the supply of health services)

- Entries deleted because the limitation inscribed therein had expired at the end of a transitional period (e.g. in telecommunications)

The editorial conventions mentioned above have been used exclusively for the purpose of facilitating comprehension of the offer and shall not create any rights or have any legal effect on the substance of commitment being offered.

In this offer, the individual sectors and sub-sectors are identified in accordance with the classification list in Document MTN.GNS/W/120 or other internationally recognised classification (e.g. Financial Services Annex, Telecommunications Annex) and corresponding CPC number (unless otherwise indicated, CPC prov) wherever possible. For computer services, the EC have attached to their Schedule of commitments their proposed “Understanding on the scope of coverage of computer and related services – CPC 84”, which clarifies – but does not modify – which activities are covered by CPC 84. The EC would like to recall the classification or list of activities proposed in their negotiating proposals with regard to telecommunications, postal and courier, and environmental services. Although discussions on classification in these sectors are still ongoing and without wishing to prejudice the outcome of these discussions, the EC have, in order to clarify the scope of their proposed commitments, presented their offer in these sectors in accordance with the approach set out in these proposals.

This offer cannot be construed as offering in any way the privatisation of public undertakings nor as preventing the EC from regulating public services in order to meet national policy objectives.

The EC remain available to provide any clarification and to answer any question on this conditional offer. Questions can be addressed to the European Commission via the EC GATS contact point (mailbox address: TRADE-GATS-CONTACT-POINTS@cec.eu.int), via the Delegation of the European Commission in Geneva, or directly to the European Commission (Directorate-General Trade, Unit G1 (Trade in services; GATS. Investment), Brussels, B-1049, Belgium, fax 32-2-299 24 35).

## INTRODUCTORY NOTE

1. The specific commitments in this schedule apply only to the territories in which the Treaties establishing the European Communities are applied and under the conditions laid down in these Treaties. These commitments apply only to the relations between the Communities and their Member States on the one hand, and non-Community countries on the other. They do not affect the rights and obligations of Member States arising from Community law.

2. The following abbreviations are used to indicate the Member States:

AT	Austria
BE	Belgium
CY	Cyprus
CZ	Czech Republic
DE	Germany
DK	Denmark
EE	Estonia
EL	Greece
ES	Spain
FI	Finland
FR	France
HU	Hungary
IE	Ireland
IT	Italy
LT	Lithuania
LU	Luxembourg
LV	Latvia
MT	Malta
NL	The Netherlands
PL	Poland
PT	Portugal
SE	Sweden
SI	Slovenia
SK	Slovak Republic
UK	United Kingdom

3. The rights and obligations arising from the GATS, including the schedule of commitments, shall have no self-executing effect and thus confer no rights directly to individual natural persons or juridical persons.

4. A glossary of terms used by individual Member States is attached to this schedule.

	<p><b><u>Public utilities</u></b></p> <p>3) All EC Member States: services considered as public utilities at a national or local level may be subject to public monopolies or to exclusive rights granted to private operators<sup>1</sup>.</p>		

<sup>1</sup> Explanatory Note: Public utilities exist in sectors such as related scientific and technical consulting services, R&D services on social sciences and humanities, technical testing and analysis services, environmental services, health services, transport services and services auxiliary to all modes of transport. Exclusive rights on such services are often granted to private operators, for instance operators with concessions from public authorities, subject to specific service obligations. Given that public utilities often also exist at the sub-central level, detailed and exhaustive sector-specific scheduling is not practical.

Lawyers' access to the professions of "avocat auprès de la Cour de cassation" et "avocat auprès du Conseil d'Etat » is subject to quotas and to a nationality condition in <del>BE and</del></p>	<p><del>1) 2) 3) 4) Unbound for legal professionals entrusted with public functions</del></p>	

<sup>21</sup> Provision of legal services is only authorised in respect of public international law, EC law and the law of any jurisdiction where the service supplier or its personnel is qualified to practice as a lawyer, and, like the provision of other services, is subject to licensing requirements and procedures applicable in EC Member States. For lawyers providing legal services in respect of public international law and foreign law, these may take *inter alia* the form of compliance with local codes of ethics, use of home title (unless recognition with the host title has been obtained), insurance requirements, simple registration with the host country Bar or a simplified admission to the host country Bar through an aptitude test and a legal or professional domicile in the host country. Legal services in respect of EC law shall in principle be carried out by or through a fully qualified lawyer admitted to the Bar in the EC acting personally, and legal services in respect of the law of a Member State of the EC shall in principle be carried out by or through a fully qualified lawyer admitted to the Bar in that Member State acting personally. Full admission to the Bar in the relevant EC Member State might therefore be necessary for representation before courts and other competent authorities in the EC since it involves practice of national domestic (EC and Member States) procedural law. However, in some Member states, foreign lawyers not fully admitted to the Bar may be allowed to represent in civil proceedings a party being a national or belonging to the State in which the lawyer is entitled to practice.

**Understanding on the scope of coverage of CPC 84 - Computer and Related Services**

CPC 84 covers the basic functions used to provide all computer and related services: computer programs defined as the sets of instructions required to make computers work and communicate (including their development and implementation), data processing and storage, and related services, such as consultancy and training services for staff of clients. Technological developments have led to the increased offering of these services as a bundle or package of related services that can include some or all of these basic functions. For example, services such as web or domain hosting, data mining services and grid computing each consist of a combination of basic computer services functions.

Computer and related services, regardless of whether they are delivered via a network, including the Internet, include all services that provide:

- consulting, strategy, analysis, planning, specification, design, development, installation, implementation, integration, testing, debugging, updating, support, technical assistance, or management of or for computers or computer systems; or
  
- computer programs defined as the sets of instructions required to make computers work and communicate (in and of themselves), plus consulting, strategy, analysis, planning, specification, design, development, installation, implementation, integration, testing, debugging, updating, adaptation, maintenance, support, technical assistance, management or use of or for computer programs; or
  
- data processing, data storage, data hosting or database services; or
  
- maintenance and repair services for office machinery and equipment, including computers; or,
  
- training services for staff of clients, related to computer programs, computers or computer systems, and not elsewhere classified.

EC Member States reserve their rights to maintain such public participation in the future. This is not a market access limitation. In Belgium, government participation and voting rights in Belgacom are freely determined under legislative powers as is presently the case under the law of 21 March 1991 on the reform of government-owned economic enterprises.

<sup>63</sup> EE: The commitments taken by Estonia are based on the scheduling principles provided by the following documents:

“Notes for Scheduling Basic Telecom Services Commitments” (S/GBT/W/2/REV.1), and,

“Market Access Limitations on Spectrum Availability” (S/GBT/W/3)

<sup>64</sup> SI: The setting up and operation of telecommunication networks infrastructure as well as the provision of voice telephone, packet and circuit switched data services, telegraph, telex, mobile radio telephone, satellite and paging services are excluded (public monopoly).

<sup>65</sup> SK: This commitment is subject to the outcome on the further discussion on issue. Note from SK: Note: Monopoly of network infrastructure and its setting up. Services have to be provided over the public network or over leased lines. Connection with public network possible. In public mobile services plus circuit and packet switched data services monopoly until 1996.

EC Member States reserve their rights to maintain such public participation in the future. This is not a market access limitation. In Belgium, government participation and voting rights in Belgacom are freely determined under legislative powers as is presently the case under the law of 21 March 1991 on the reform of government-owned economic enterprises.

7. FINANCIAL SERVICES SECTOR (first part) <sup>82</sup>			
1.	Part of the EC (AT, BE, CZ, DK, DE, ES, FI, FR, EL, HU, IT, IE, LU, NL, PT, SE, SK, and UK) undertakes commitments on Financial Services in accordance with the provisions of the "Understanding on Commitments in Financial Services" (the Understanding). These commitments are in the following section. Commitments on Financial Services of the other part of the EC (CY, EE, LV, LT, MT, PL, SI) are not based on the Understanding and are in a second section.		
2.	These commitments are subject to the limitations on market access and national treatment in the "all sectors" section of this schedule and to those relating to the subsectors listed below.		
3.	The market access commitments in respect of modes (1) and (2) apply only to the transactions indicated in paragraphs B.3 and B.4 of the market access section of the Understanding respectively, <del>except for Hungary, for which they apply only to the transactions indicated in paragraphs B.3 (a) and (b) and B.4 (a) and (b) respectively.</del>		
4.	Notwithstanding note 1. above, the market access and national treatment commitments in respect of mode (4) on financial services are those in the "all sectors" section of this schedule, except for the Czech Republic, Hungary, the Slovak Republic and Sweden, in which case commitments are made in accordance with the Understanding.		
5.	The admission to the market of new financial services or products may be subject to the existence of, and consistency with, a regulatory framework aimed at achieving the objectives indicated in Article 2(a) of the Financial Services Annex.		
6.	As a general rule and in a non-discriminatory manner, financial institutions incorporated in a Member State of the Community must adopt a specific legal form.		
7.	<del>CZ, SK: Notwithstanding note 1. above, the purchase and acquisition of financial services by public entities of the Czech Republic and of the Slovak Republic are governed in this schedule by Article XIII of the General Agreement on Trade in Services.</del>		
8.	<del>HU: The transfer of information containing personal data, bank secret, securities secret and/or business secret is not allowed.</del>		
9.	<del>HU: Insurance, banking, securities and collective investment management services should be performed by legally separate and independently capitalised suppliers of financial services.</del>		

<sup>82</sup> Unlike foreign subsidiaries, branches established directly in a Member State by a non-Community financial institution are not, with certain limited exceptions, subject to prudential regulations harmonised at Community level which enable such subsidiaries to benefit from enhanced facilities to set up new establishments and to provide cross-border services throughout the Community. Therefore, such branches receive an authorisation to operate in the territory of a Member State under conditions equivalent to those applied to domestic financial institutions of that Member State, and may be required to satisfy a number of specific prudential requirements such as, in the case of banking and securities, separate capitalisation and other solvency requirements and reporting and publication of accounts requirements or, in the case of insurance, specific guarantee and deposit requirements, a separate capitalisation, and the localisation in the Member State concerned of the assets representing the technical reserves and at least one third of the solvency margin. Member States may apply the restrictions indicated in this schedule only with regard to the direct establishment from a third country of a commercial presence or to the provision of cross-border services from a third country; consequently, a Member State may not apply these restrictions, including those concerning establishment, to third-country subsidiaries established in other Member States of the Community, unless these restrictions can also be applied to companies or nationals of other Member States in conformity with Community law.

	<p>10. <del>HU: Legislation permitting market access of branches is currently being prepared. Details and conditions to apply are still being determined. It is intended to bind the effects of this legislation as soon as it has been adopted.</del></p> <p>11. <del>HU: The board of a financial institution should include at least two members, who are Hungarian citizens, residents in the meaning of the relevant foreign exchange regulations and have permanent residency in Hungary for at least one year.</del></p> <p>12. <del>HU: Direct or indirect ownership or voting rights in a credit institution of a single shareholder other than credit institution, insurance company or investment firm cannot exceed 15%.</del></p>		
<p>A. <u>Insurance and Insurance-Related Services</u></p>			
<p>1.</p>	<p><del>CZ: Monopoly rights as indicated in paragraph B.1 of the Understanding. Compulsory motor third party liability insurance is provided by an exclusive supplier<sup>83</sup>. Compulsory health insurance is provided by licensed Czech owned suppliers only.</del></p>		
<p>2.</p>		<p><del>SK: <i>The following insurance services are provided by exclusive suppliers:</i> Compulsory motor third party liability insurance, <b>and</b> compulsory air transport insurance (except for insurance of international commercial transport) have to be effected through an insurance company established in Slovakia, the liability insurance of employer against injury or occupational disease have to be effected through the <b>SocialSlovak</b> Insurance Company. The basic health insurance is confined to the Slovak health insurance companies having a licence for provision of health insurance granted by the Ministry of Healthcare of the Slovak Republic <i>according to the Act 273/1994 Coll. of Law</i>. Fund pension insurance schemes and sickness insurance are confined to the Social Insurance Company. <i>These exclusive service suppliers act in a manner consistent with obligations under Article II of the GATS and specific commitments.</i></del></p>	

<sup>83</sup> CZ: When monopoly rights concerning compulsory motor third party liability insurance are removed, providing this service will be open on a non-discriminatory basis to Czech established service providers.

7. FINANCIAL SERVICES SECTOR (second part) <sup>88</sup>			
1.	The commitments on Financial Services of the other part of the EC (CY, EE, LV, LT, MT, PL, SI) are in the following section.		
<del>2.</del>	<del>CY: It is understood that this schedule should be read in conjunction with the horizontal commitments applicable to all sectors/subsectors submitted by Cyprus in its Schedule of Specific Commitments to the GATS and with the List of Article II (MFN) Exemptions.</del>		
<del>3.</del>	<del>CY: The following general conditions and qualifications would apply even where no limitations or conditions are stated in the schedule:</del>		
	<del>(i) Consideration of national security and public policy objectives;</del>		
	<del>(ii) This schedule does not in any way pertain to services supplied in the exercise of government functions. Also, it does not affect measures pertaining to trade in goods which may constitute inputs to a scheduled service or other services. In addition, limitations on market access or national treatment in respect of services which may constitute inputs to or be used to supply a scheduled service, shall continue to apply.</del>		
<del>4.</del>	<del>CY: The laws and regulations mentioned in this schedule should not be construed as an exhaustive reference to all laws, and regulations governing the financial sector. The transfer, for example, of information containing personal data, bank secret or any business secret is not allowed. Such transfer is subject to domestic laws on protection of confidentiality of information of banks' customers. Furthermore, it is noted that non discriminatory qualitative measures pertaining to technical standards, public health and environmental considerations, licensing, prudential consideration, professional qualifications and competency requirements have not been listed as conditions or limitations to market access and national treatment.</del>		
<del>5.</del>	<del>CY: Unregulated financial services and products and the admission to the market of new financial services or products, may be subject to the existence or the introduction of a regulatory framework aimed at achieving the objectives indicated in Article 2(a) of the Financial Services Annex.</del>		
<del>6.</del>	<del>CY: Due to exchange controls operative in Cyprus:</del>		
	<del>residents are not permitted to purchase banking services which may involve transfer of funds abroad, while they are physically abroad;</del>		
	<del>loans to non residents/foreigners or non resident controlled companies require approval from the Central Bank;</del>		
	<del>acquisition of securities by non residents also requires permission from the Central Bank;</del>		
	<del>dealings in foreign currency may be carried out only through banks which have been accorded "Authorised Dealer" status from the Central Bank.</del>		
<del>7.</del>	<del>MT: For mode (3) commitments, under exchange control legislation non residents wishing to supply any services through the registration of a local company may do so with the prior permission of the Central Bank of Malta. Companies with the participation of non resident legal or natural persons require a minimum share capital of 10,000 Maltese Liri of which 50% has to be paid up. The non resident percentage share of the equity is to be paid for with funds emanating from abroad. Companies with non resident participation must apply for a permit from the Ministry of Finance to acquire premises under the appropriate legislation.</del>		
<del>8.</del>	<del>MT: For mode (4) commitments, the requirements of Maltese legislation and regulations regarding entry, stay, acquisition of real property, work and social security measures shall continue to apply, including regulations concerning period of stay, minimum wages as well as collective wage agreements. Entry, work and residence permits are granted at the discretion of the Government of Malta.</del>		

Modes of supply: (1) Cross-border (2) Consumption abroad (3) Commercial presence (4) Presence of natural persons

Sector or Sub-sector	Limitations on Market Access	Limitations on National Treatment	Additional Commitments
9.	<del>MT: For modes (1) and (2) commitments, exchange control legislation allows a resident to transfer abroad annually for portfolio investment up to Lm 5,000. Amounts in excess of Lm 5,000 are subject to exchange control permission.</del>		
10.	<del>MT: Residents may borrow from overseas without the need to obtain exchange control approval if the borrowing is for a period exceeding three years. Such borrowings have however to be registered with the Central Bank.</del>		
112.	SI: The admission to the market of new financial services or products may be subject to the existence of, and consistency with, a regulatory framework aimed at achieving the objectives indicated in Article 2.(a) of the Annex on Financial Services.		
123.	SI: As a general rule and in a non-discriminatory manner, financial institutions incorporated in the Republic of Slovenia must adopt a specific legal form.		
134.	SI: Insurance and banking activities should be performed by legally separate suppliers of financial services.		
145.	SI: Investment services can be provided only through banks and investment firms.		
A.	<u>Insurance and Insurance-Related Services</u>		
1.	EE: Compulsory social security services are not committed.		
2.	LV: (i), (ii) (3): As a general rule and in non-discriminatory manner, foreign insurance institutions must adopt a specific legal form - joint-stock company. <i>The right to establish foreign branches directly will be introduced by the 31 December 2002.</i>		
3.	<del>LV: (iii) (3): Intermediary can be only natural person (no nationality requirement) and can provide service on behalf of insurance company having the authorisation from Insurance Supervisory Authority in Latvia.</del>		
3.	LT: All subsectors: Insurance companies are not allowed to provide both life and non-life insurance. Separate incorporation is required for those two types (a) and (b).

**NOTES TO THE SECTION ON INTERNATIONAL MARITIME TRANSPORT SERVICES**

Where road, rail, inland waterways (and) (related) (auxiliary) services are not otherwise fully covered this schedule, a multimodal transport operator (as defined below –3) shall have the ability to rent or lease trucks, railway carriages or barges, and related equipment, for the purpose of inland forwarding of cargoes, or have access to, and use of, these forms of multimodal activities on reasonable and non-discriminatory terms and conditions for the purpose of carrying out multimodal transport operations. (« Reasonable and non-discriminatory terms and conditions » mean, for the purpose of this [additional] commitment the ability of the multimodal transport operator to arrange for the conveyance of its merchandise on a timely basis, including priority over other merchandise which has entered the port at a later date).

**DEFINITIONS**

1. Without prejudice to the scope of activities which may be considered as « cabotage » under the relevant national legislation, this schedule does not include « maritime cabotage services », which are assumed to cover transportation of passengers or goods between a port located in a Member State and a port located in the same Member State, and transportation of passengers or goods between a port located in a Member State and installations or structures situated on the continental shelf of this Member State.

2. "Other forms of commercial presence for the supply of international maritime transport services" means the ability for international maritime transport service suppliers of other Members to undertake locally all activities which are necessary for the supply to their customers of a partially or fully integrated transport service, within which the maritime transport constitutes a substantial element. (This commitment shall however not be construed as limiting in any manner the commitments undertaken under the cross-border mode of delivery).

These activities include, but are not limited to:

- (a) marketing and sales of maritime transport and related services through direct contact with customers, from quotation to invoicing, these services being those operated or offered by the service supplier itself or by service suppliers with which the service seller has established standing business arrangements;
- (b) the acquisition, on their own account or on behalf of their customers (and the resale to their customers) of any transport and related services, including inward transport services by any mode, particularly inland waterways, road and rail, necessary for the supply of the integrated services;
- (c) the preparation of documentation concerning transport documents, customs documents, or other documents related to the origin and character of the goods transported;
- (d) the provision of business information by any means, including computerised information systems and electronic data interchange (subject to the provisions of the annex on telecommunications);
- (e) the setting up of any business arrangements (including participation in the stock of a company) and the appointment of personnel recruited locally (or, in the case of foreign personnel, subject to the horizontal commitment on movement of personnel) with any locally established shipping agency;
- (f) acting on behalf of the companies, organising the call of the ship or taking over cargoes when required.

3. "Multimodal transport operator" means the person on whose behalf the bill of lading/ multimodal transport document, or any other document evidencing a contract of multimodal

carriage of goods, is issued and who is responsible for the carriage of goods pursuant to the contract of carriage.

4. "Maritime cargo handling services" means activities exercised by stevedore companies, including terminal operators, but not including the direct activities of dockers, when this workforce is organised independently of the stevedoring or terminal operator companies. The activities covered include the organisation and supervision of:

- the loading/discharging of cargo to/from a ship;
- the lashing/unlashing of cargo;
- the reception/delivery and safekeeping of cargoes before shipment or after discharge.

5. "Customs clearance services" (alternatively "customs house brokers' services") means activities consisting in carrying out on behalf of another party customs formalities concerning import, export or through transport of cargoes, whether this service is the main activity of the service provider or a usual complement of its main activity.

6. "Container station and depot services" means activities consisting in storing containers, whether in port areas or inland, with a view to their stuffing/stripping, repairing and making them available for shipments.

7. "Maritime agency services" means activities consisting in representing, within a given geographic area, as an agent the business interests of one or more shipping lines or shipping companies, for the following purposes:

- marketing and sales of maritime transport and related services, from quotation to invoicing, and issuance of bills of lading on behalf of the companies, acquisition and resale of the necessary related services, preparation of documentation, and provision of business information;
- acting on behalf of the companies organising the call of the ship or taking over cargoes when required.

8. "Freight forwarding services" means (the activity consisting of organising and monitoring shipment operations on behalf of shippers, through the acquisition of transport and related services, preparation of documentation and provision of business information).

9. Movement of equipment. Transportation between a port located in a Member State and a port located in another Member State is open. In addition, International maritime transport suppliers can move/reposition their own equipment (i.e. empty containers, flatbeds etc.) on their vessels between ports in a Member State of the EC when no revenue is involved, except for:

- AT, CZ, HU, LU, SK where not applicable.

10. Feeder services. Transportation between a port located in a Member State and a port located in another Member State is open. In addition, international maritime transport suppliers can operate vessels of any flag for the purposes of pre- and onward carriage of their own containerised international cargo between ports in a Member State of the EC, except for:

- AT, CZ, HU, LU, SK where not applicable and;
- CY, DE, EE, ES, FR, FI, EL, IT, LT, LV, MT, PL, PT, SI and SE by authorisation only.

**TELECOMMUNICATIONS**

ADDITIONAL COMMITMENT BY THE EUROPEAN COMMUNITIES  
AND THEIR MEMBER STATES

**SCOPE**

The following are definitions and principles on the regulatory framework for the basic telecommunications services underpinning the market access commitments by the European Communities and their Member States.

**DEFINITIONS**

*User* mean service consumer and service suppliers.

*Essential facilities* mean facilities of a public telecommunications transport network and service that

- a) are exclusively or predominantly provided by a single or limited number of suppliers; and
- b) cannot feasibly be economically or technically substituted in order to provide a service.

*A major supplier* is a supplier which has the ability to materially affect the terms of participation (having regard to price and supply) in the relevant market for basic telecommunications services as a result of:

- a) control over essential facilities; or
- b) use of its position in the market.

**1. COMPETITIVE SAFEGUARDS:**

1.1. Prevention of anti-competitive practices in telecommunications:

Appropriate measures shall be maintained for the purpose of preventing suppliers who, alone or together, are a major supplier from engaging in or continuing anti-competitive practices.

1.2. Safeguards:

The anti-competitive practices referred to above shall include in particular:

- a) engaging in anti-competitive cross-subsidization;
- b) using information obtained from competitors with anti-competitive results; and
- c) not making available to other services suppliers on a timely basis technical information about essential facilities and commercially relevant information which are necessary for them to provide services.

**2. INTERCONNECTION**

2.1. This section applies to linking with suppliers providing public telecommunications transport networks or services in order to allow the users of one supplier to communicate with users of another supplier and to access services provided by another supplier.

2.2. Interconnection to be ensured:

Within the limits of permitted market access, interconnection with a major supplier will be ensured at any technically feasible point in the network. Such interconnection is provided<sup>100</sup>:

- a) under non-discriminatory terms, conditions (including technical standards and specifications) and rates and of a quality no less favourable than that provided for its own like services or for like services of non-affiliated service suppliers or for its subsidiaries or other affiliates<sup>101</sup>;

- b) in a timely fashion, on terms, conditions (including technical standards and specifications) and cost-oriented rates that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the supplier need not pay for network components or facilities that it does not require for the service to be provided; and
- c) upon request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

2.3. Public availability of the procedures for interconnection negotiations :

The procedures applicable for interconnection to a major supplier will be made publicly available.

2.4. Transparency of interconnection arrangements:

It is ensured that a major supplier will make publicly available either its interconnection agreements or a reference interconnection offer.

2.5. Interconnection : dispute settlement:

A service supplier requesting interconnection with a major supplier will have recourse, either :

- a) at any time or
- b) after a reasonable period of time which has been made publicly known to an independent domestic body, which may be a regulatory body as referred to in paragraph 5 below, to resolve disputes regarding appropriate terms, conditions and rates for interconnection within a reasonable period of time, to the extent that these have not been established previously.

### 3. UNIVERSAL SERVICE

Any Member has the right to define the kind of universal service obligation it wishes to maintain. Such obligations will not be regarded as anti-competitive *per se*, provided they are administered in a transparent, non-discriminatory and competitively neutral manner and are not more burdensome than necessary for the kind of universal service defined by the Member.

### 4. PUBLIC AVAILABILITY OF LICENSING CRITERIA

Where a licence is required, the following will be made publicly available:

- a) all the licensing criteria and the period of time normally required to reach a decision concerning an application for a licence and
- b) the terms and conditions of individual licences.

The reasons for the denial of a licence will be made known to the applicant upon request.

### 5. INDEPENDENT REGULATORS

The regulatory body is separate from, and not accountable to, any supplier of basic telecommunications services. The decisions of and the procedures used by regulators shall be impartial with respect to all market participants.

### 6. ALLOCATION AND USE OF SCARCE RESOURCES

Any procedures for the allocation and use of scarce resources, including frequencies, numbers and rights of way, will be carried out in an objective, timely, transparent and non-discriminatory manner. The current state of allocated frequency bands will be made publicly available, but detailed identification of frequencies allocated for specific government uses is not required.

**FINANCIAL SERVICES**

ADDITIONAL COMMITMENTS BY PART OF THE EC (AT, BE, DK, DE, ES, FI, FR, EL, IE, IT, LU, NL, PT, SE, UK)

**INSURANCE**

- a) Part of the EC (AT, BE, DK, DE, ES, FI, FR, EL, IE, IT, LU, NL, PT, SE, UK) notes the close co-operation among the insurance regulatory and supervisory authorities of these Member States and encourages their efforts to promote improved supervisory standards.
- b) These Member States will make their best endeavours to consider within 6 months complete applications for licenses to conduct direct insurance underwriting business, through the establishment in a Member State of a subsidiary in accordance with the legislation of that Member State, by an undertaking governed by the laws of a third country. In cases where such applications are refused, the Member State authority will make its best endeavours to notify the undertaking in question and give the reasons for the refusal of the application.
- c) The supervisory authorities of these Member States will make their best endeavours to respond without undue delay to requests for information by applicants on the status of complete applications for licences to conduct direct insurance underwriting business, through the establishment in a Member State of a subsidiary in accordance with the legislation of that Member State by an undertaking governed by the laws of a third country.
- d) Part of the EC (AT, BE, DK, DE, ES, FI, FR, EL, IE, IT, LU, NL, PT, SE, UK) will make its best endeavours to examine any questions pertaining to the smooth operation of the internal market in insurance, and consider any issues that might have an impact on the internal market in insurance.
- e) Part of the EC (AT, BE, DK, DE, ES, FI, FR, EL, IE, IT, LU, NL, PT, SE, UK) notes that, as regards motor insurance, under EC law as in force on 31 ~~March December 1997 2003~~ **May 2005**, and without prejudice to future legislation, premiums may be calculated taking several risk factors into account.
- f) Part of the EC (AT, BE, DK, DE, ES, FI, FR, EL, IE, IT, LU, NL, PT, SE, UK) notes that under EC law, as in force on 31 ~~March December 1997 2003~~ **May 2005**, and without prejudice to future legislation, the prior approval by national supervisory authorities of policy conditions and scales of premiums that an insurance undertaking intends to use is generally not required.
- g) Part of the EC (AT, BE, DK, DE, ES, FI, FR, EL, IE, IT, LU, NL, PT, SE, UK) notes that under EC law, as in force on 31 ~~March December 1997 2003~~ **May 2005**, and without prejudice to future legislation, the prior approval by national supervisory authorities of increases in premium rates is generally not required.

**OTHER FINANCIAL SERVICES**

- a) In application of the relevant EC Directives, these Member States will make their best endeavours to consider within 12 months complete applications for licenses to conduct banking activities, through the establishment in a Member State of a subsidiary in accordance with the legislation of that Member State, by an undertaking governed by the laws of a third country. In cases where such applications are refused, the Member State will make its best endeavours to notify the undertaking in question and give the reasons for the refusal of the application.

b) These Member States will make their best endeavours to respond without undue delay to requests for information by applicants on the status of complete applications for licenses to conduct banking activities, through the establishment in a Member State of a subsidiary in accordance with the legislation of that Member State, by an undertaking governed by the laws of a third country.

c) In application of the relevant EC Directives, these Member States will make their best endeavours to consider within 6 months complete applications for licenses to conduct investment services in the securities field, as defined in the Investment Services Directive, through the establishment in a Member State of a subsidiary in accordance with the legislation of that Member State, by an undertaking governed by the laws of a third country. In cases where such applications are refused, the Member State will make its best endeavours to notify the undertaking in question and give the reasons for the refusal of the application.

d) These Member States will make their best endeavours to respond without undue delay to requests for information by applicants on the status of complete applications for licenses to conduct investment services in the securities area, through the establishment in a Member State of a subsidiary in accordance with the legislation of that Member State, by an undertaking governed by the laws of a third country.

POSTAL AND COURIER SERVICES  
TEXT OF COMMUNICATION TN/S/W/26 OF THE EUROPEAN COMMUNITIES ON A  
REFERENCE PAPER ON POSTAL AND COURIER SERVICES

**I. INTRODUCTION**

1. This communication is a complement to the sectoral proposal S/CSS/W/61 of the European Communities and their Member States on the postal and courier sector, which notably contemplated the possibility of a reference paper for postal and courier services. The EC suggests that the following reference paper proposal on postal and courier services could be a model to be further discussed with Members with a view to insert a final version of the paper in the additional commitments of Members willing to take specific commitments in the postal and courier services sector.

2. The present proposal does not deal with two important issues, which should be discussed further, namely :

- (a) relations between WTO and UPU rules, which the EC considers should not be covered by the reference paper but should be further discussed among Members;
- (b) a list of examples of the anti-competitive practices mentioned in section 1 of the following proposal, as well as a list of practices which should not be considered as anti-competitive *per se*, which the EC considers should in principle be added to the reference paper at some stage.

**II. PROPOSAL FOR A REFERENCE PAPER ON THE POSTAL AND COURIER SECTOR**

Scope

The following are definitions and principles on the regulatory framework for all postal and courier services.

Definitions

An "individual licence" is an authorisation, granted to an individual supplier by a regulatory authority, which is required before supplying a given service.

Universal service is the permanent provision of a postal service of specified quality at all points in the territory of a Member at affordable prices for all users.

**1. Prevention of anti-competitive practices in the postal and courier sector**

Appropriate measures will be maintained or introduced for the purpose of preventing suppliers who, alone or together, have the ability to affect materially the terms of participation (having regard to price and supply) in the relevant market for postal and courier services as a result of use of their position in the market, from engaging in or continuing anti-competitive practices.

**2. Universal service**

Any Member has the right to define the kind of universal service obligation it wishes to maintain. Such obligations will not be regarded as anti-competitive *per se*, provided they are administered in a transparent, non-discriminatory and competitively neutral manner and are not more burdensome than necessary for the kind of universal service defined by the Member.

### **3. Individual licences**

**An individual licence may only be required for services which are within the scope of the universal service.**

**Where an individual licence is required, the following will be made publicly available:**

- (a) all the licensing criteria and the period of time normally required to reach a decision concerning an application for a licence; and**
- (b) the terms and conditions of individual licences.**

**The reasons for the denial of an individual licence will be made known to the applicant upon request and an appeal procedure through an independent body will be established at the Member's level. Such a procedure will be transparent, non-discriminatory, and based on objective criteria.**

### **4. Independence of the regulatory body**

**The regulatory body is legally separate from, and not accountable to, any supplier of postal and courier services. The decisions of and the procedures used by the regulatory body will be impartial with respect to all market participants.**

## **III. EXPLANATORY NOTES**

### **A. WHAT IS A REFERENCE PAPER?**

**3. In addition to the general commitments imposed by GATS on all the services sectors it covers, Members can take "specific" commitments in the sectors of their choice. The specific commitments are described in the "schedule of commitments" of each Member and divided into market access (Article XVI of GATS), national treatment (Article XVII), and "additional commitments" (Article XVIII).**

**4. A reference paper is a list of these "additional commitments" for a given sector, which Members are invited to inscribe in their schedules of commitments if they wish to do so. Thus, the reference paper only has a legal value inasmuch as it is inscribed in a Member's schedule of commitments. But it can be a useful "reference" for negotiations on the liberalisation of trade in a given sector. There is to this day one reference paper, on telecommunications, which has been undertaken by a significant number of WTO Members<sup>102</sup>.**

### **B. WHY A REFERENCE PAPER IN POSTAL AND COURIER?**

**5. The postal and courier sector has some specific features :**

- (a) importance of regulation ;**
- (b) predominance of State-owned operators ;**
- (c) tendency of the postal operators to diversify their activities (finance, telecommunications, internet, express).**

**6. These features mainly characterise the "traditional" activities where a universal service obligation exists, but they can "spill over" in other sub-sectors, such as express delivery (cross-subsidisation, for instance). They might justify specific rules for the postal and courier sector, in order:**

- (a) to avoid that commitments in market access and national treatment are rendered ineffective by other practices specific to the sector;
- (b) to have a common view on the scope of terms commonly used in schedules of commitments (such as universal service) in order to clarify commitments or possible restrictions to market access and national treatment which Members might wish to keep in their schedules of commitments.

## **C. THE POSSIBLE CONTENTS OF THE REFERENCE PAPER**

This part describes each paragraph of the proposed reference paper.

### **1. Scope**

7. It is proposed to draft a reference paper for the whole sector (postal and courier), including express delivery services.

### **2. Definitions**

8. The terms of "users" and "essential facilities", defined in the reference paper on telecommunications (hereafter RPT), are not used in the proposal because they do not play the same role in the postal/courier sector.

9. It is proposed to include a definition of individual licences and universal service, which did not exist in the RPT, but which seem necessary for the paragraphs dedicated to universal service and licensing procedures. The definition of universal service is consistent with (and inspired by) the definition given at UPU level.

### **3. Prevention of anti-competitive practices**

10. This paragraph aims at preventing dominant players from abusing their market power. It is substantially inspired by the paragraph of the RPT. However, the subsequent paragraph of the RPT, which describes examples of such anti-competitive practices, has not been included as a further analysis of the anti-competitive practices specific to the postal and courier sector appears necessary.

### **4. Universal service**

11. Universal service is a key component of the postal sector for most Members. The EC believes that this principle should be expressly mentioned in additional commitments rules. In particular, this paragraph confirms the possibility to impose universal services obligations provided they respect certain basic rules, such as transparency, non-discrimination and a neutral administration. It is entirely inspired by the RPT.

### **5. Licensing criteria**

12. This paragraph aims at giving operators minimal guarantees in the licensing procedures. The wording of the RPT has been included, but mention of an appeal procedure has been added.

13. In addition, the possibility of imposing an individual licensing procedure on an operator would be restricted to services where a universal service obligation exists. This would answer concerns that some countries might actually feel enticed by the reference paper to add new licensing procedures in activities where such procedures did not exist yet (in express delivery services notably).

**6. Independent regulators**

**14. This paragraph imposes the principle of an independent regulator. The provisions of the RPT have broadly been included.**

**D. RELATIONS WITH UPU**

**15. The question of the relation between rules laid down by the UPU and the rules of the WTO will have to be dealt with by Members. One of these possible overlaps is the "terminal dues" system. Terminal dues are the tariffs received by universal services operators for the delivery of international mail. These tariffs are managed as per rules decided in the UPU but the question is whether the system, which draws a distinction between developed and developing countries and is not always related to costs, is consistent with GATS and notably its MFN obligation.**

**16. Because of its flexibility, a reference paper does not appear to be the right instrument to deal with this more systemic problem. However, the question of the relations between UPU rules and GATS should be addressed in the negotiations at some point, in order to support ongoing efforts within the UPU to establish a more cost-oriented terminal dues system.**
