

# Highways Workshop

22–23 May 2023 • Tbilisi, Georgia

## Семинар по автомобильным дорогам

22–23 мая 2023 года • Тбилиси, Грузия

# Introduction to objectives and agenda of the workshop

**Ritu Mishra**

Transport Specialist  
CWTC

# OBJECTIVES AND AGENDA

## Objectives

- Update on ongoing and planned activities in road safety
- Share experiences and lessons on selected topics

## Agenda

- Introduction to objectives and agenda of the road safety workshop
- Outlook of CAREC road safety
- Session 1: Presentation on Speed Management
- Group Discussion on speed management
- Session 2: Blackspot Investigation, Analysis and treatment
- Group Discussion on blackspot investigation, analysis and treatment
- Group Discussion on CAREC focused plans, options and ideas road safety KSTA
- Wrap-up

# CAREC ROAD SAFETY INITIATIVES

- Enhancing Road Safety for CAREC Member Countries : 2014 to 2018, \$3.0 million
- Central Asia Regional Economic Cooperation: Knowledge Sharing and Services in Transport and Transport Facilitation: 2014 to 2018, \$3.05 million
- Central Asia Regional Economic Cooperation: Knowledge Sharing and Services in Transport and Transport Facilitation (Phase 2): 2019 to 2024, \$2.5 million
- Enhancing Road Safety for CAREC Member Countries (Phase 2): 2020 to 2024, \$1.5 million

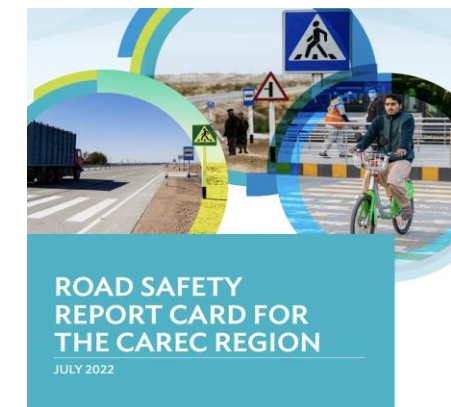

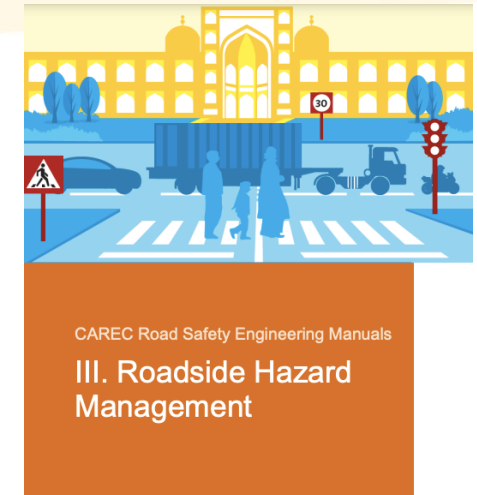

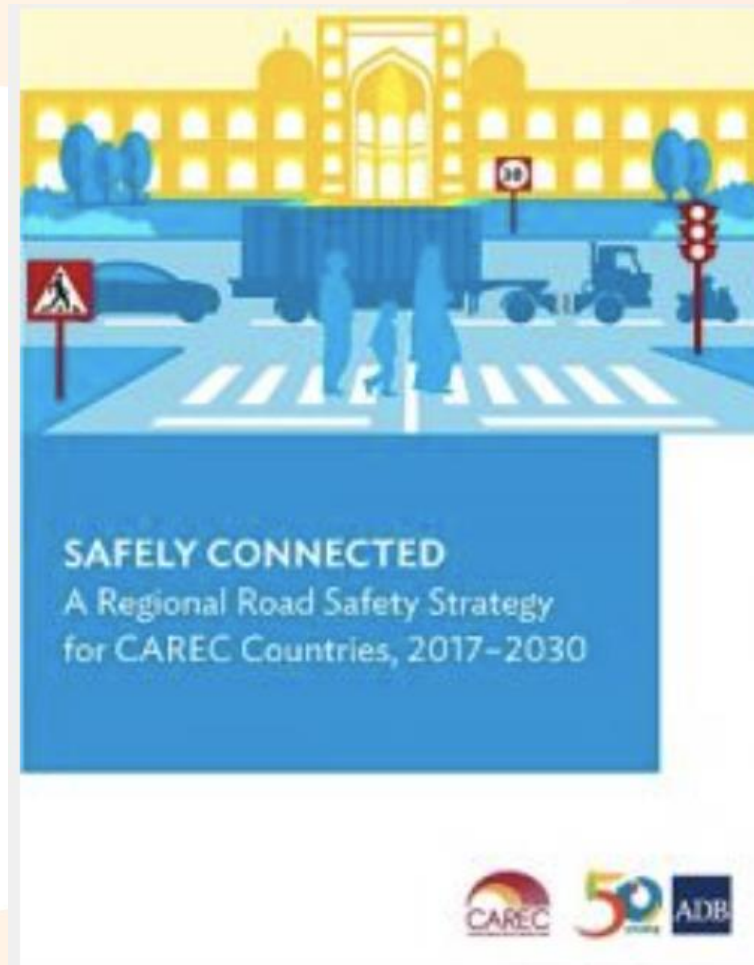

# ENHANCING ROAD SAFETY FOR CENTRAL ASIA REGIONAL ECONOMIC COOPERATION MEMBER COUNTRIES (PHASE 2)

- Budget= \$1.5 million
- Builds on KSTA for Enhancing Road Safety for Central Asia Regional Economic Cooperation Member Countries which was implemented from December 2014 to May 2019.
- Equip CAREC member countries with the necessary skills and knowledge products
- Facilitate regional policy dialogue, knowledge sharing, and a coordinated approach to common road safety challenges.
- Filling the gaps identified during implementation of CAREC road safety strategy 2017-2030 and support CAREC countries further.

# ROAD SAFETY STRATEGY AND KNOWLEDGE PRODUCTS

# TRAININGS/WORKSHOPS CONDUCTED

Several national and regional trainings/workshops on topics:

- road safety data systems and research
- road safety engineering
- road safety education and awareness
- road safety enforcement
- pedestrian safety
- crash data investigation
- Road safety audit

## UPCOMING ACTIVITIES FOR YEAR 2023

- Road Safety Engineering Manual VI: Speed Management
- Road safety Engineering Manual VII: Black spot Investigation, Analysis and Treatment
- National trainings in Kazakhstan, Kyrgyz Republic and Georgia
  - i. Pedestrian safety
  - ii. Blackspot investigation, analysis and treatment
- National training in crash data reporting and analysis
- Crash data review and analysis

# CAREC REGION ROAD CRASH DATA REVIEW AND DEVELOP WEB BASED DASHBOARD TO REPORT ACCIDENTS

1. Assess road crash data management practices for CAREC country and develop guidance in an effort to improve crash data management
2. Move towards greater harmonization of crash data across the region.
3. Country reviews including of crash data management by CAREC member countries, include assessment for collection at the national level and recommendations for improvement
4. Propose a standard collision classification system for the CAREC region based on systems used in best practice countries and considering CAREC region specific conditions
5. Develop a web based dashboard to report accidents through existing organizational resources available in each province.
6. In-person training on improvement to crash data management

**THANK YOU!**

Any suggestions on topics of knowledge sharing sessions/workshops for road safety to be conducted in 2024 based on the country's need?
