under the Ministry of Finance  
of the Republic of Kazakhstan**

# Technology Upgrading as a Trade Facilitation Tool

Tolkyn Baimukhanova

[tbaimuhanova@q0100.customs.kz](mailto:tbaimuhanova@q0100.customs.kz)

# Technology Upgrading

- ✓ **customs operations at the border**
- ✓ **customs operations at the customs clearance stage**
- ✓ **provision of advanced equipment and software products based on the latest scientific achievements**

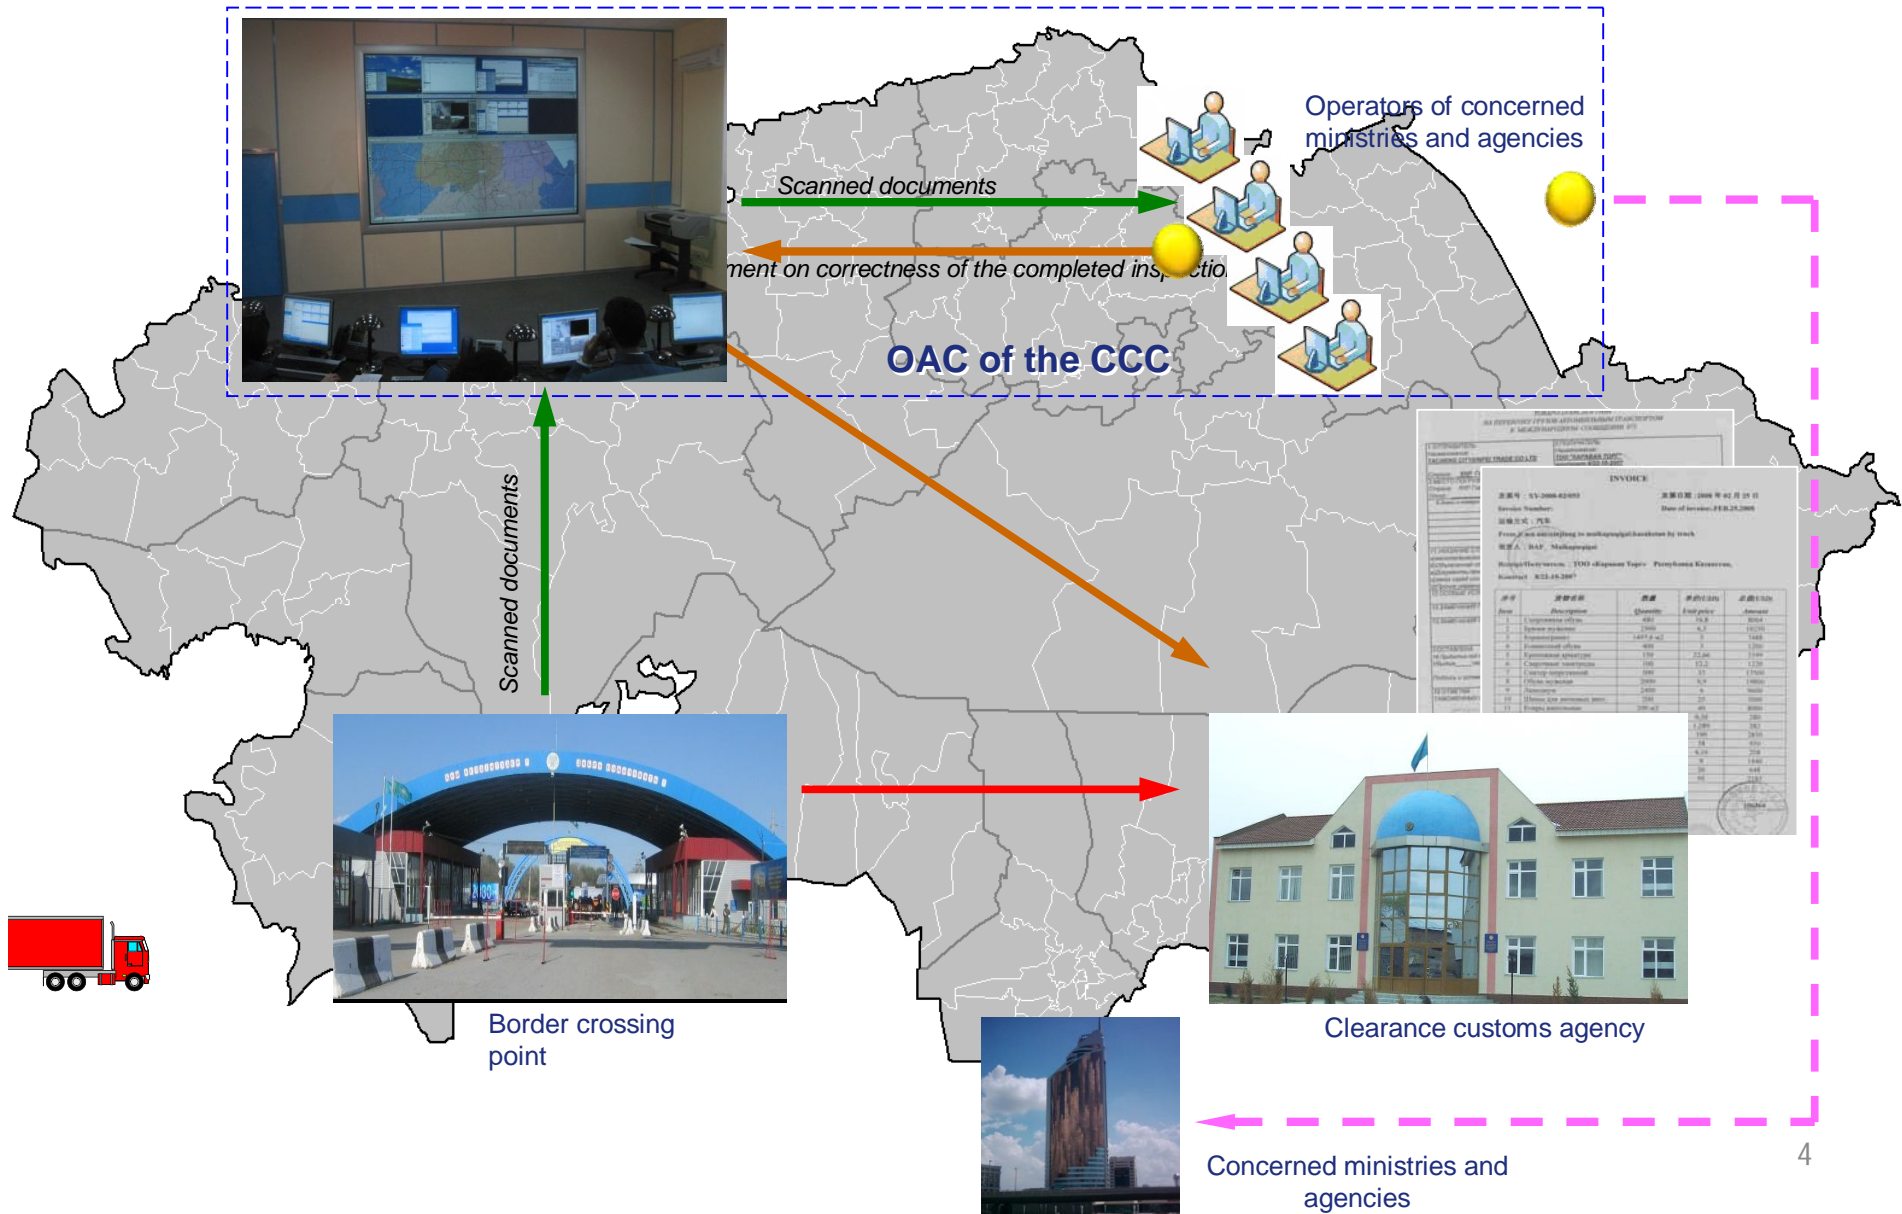

# Tasks for BCP technology upgrading

- 
- **Establishment of a system and the single monitoring center**
  - **Establishment of electronic check points**
  - **Establishment of a system of advance information on border crossing**

# Clearance procedure for road border crossing points

# Electronic check point

**Vehicle registration**

**Radiation control**

**Measuring**

**Vehicle scanning**

**Safe-packet clearance**

**Registration of vehicle exit**

**Attaching an electronic seal**

**Electronic manifest**

**OAC/ CCC of MoF**

**Information is sent to OAC of the CCC**

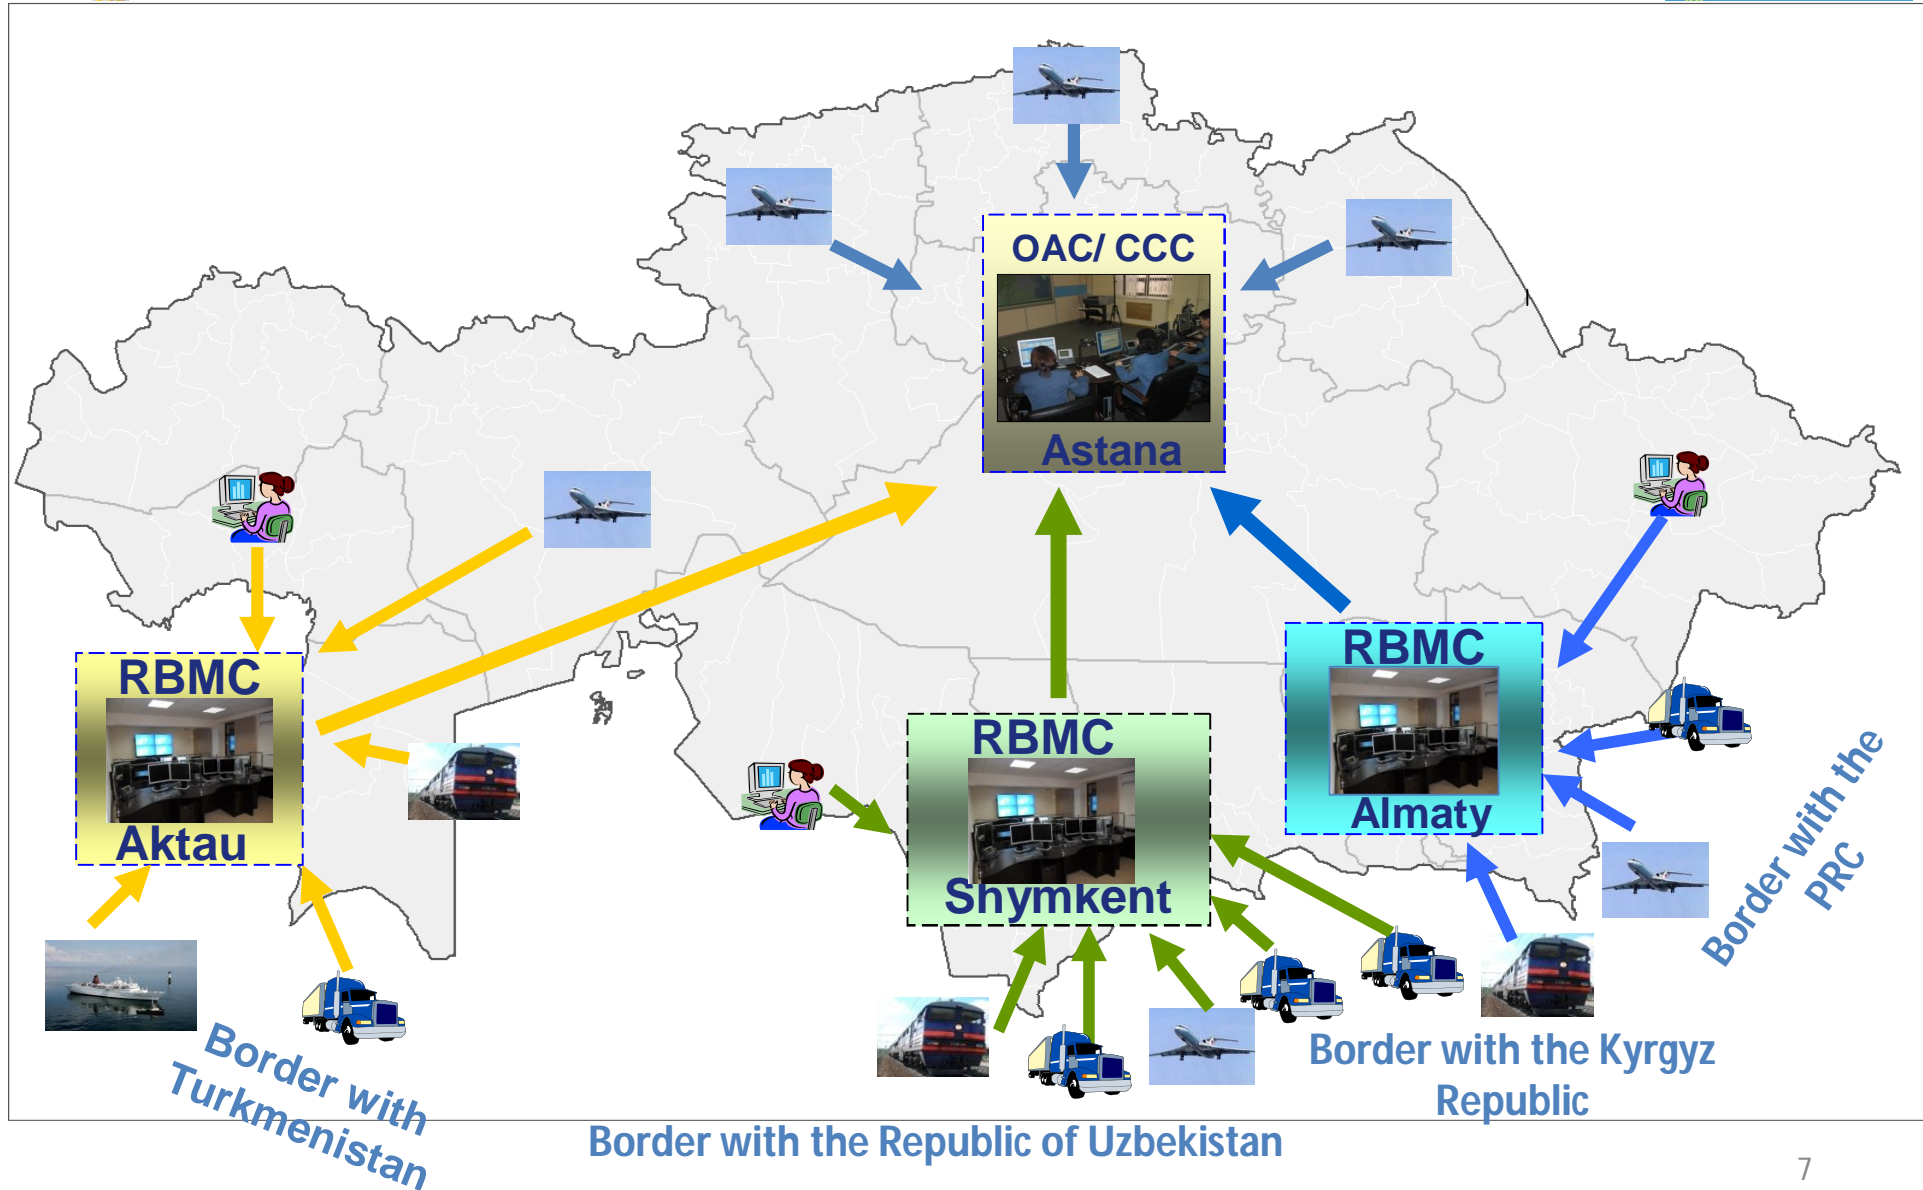

# Outputs

- **Using information technologies to control the customs transit procedure**
- **Customs control equipment is integrated in a single soft- and hardware complex**
- **Prompt provision of advance information**
- **Reduced time and financial costs of traders**
- **Elimination of the human factor impact**
- **Implementation of the integrated border management principle, reduced time for BCP crossing and risk of corruption-related offences**

# Location of regional border monitoring centers

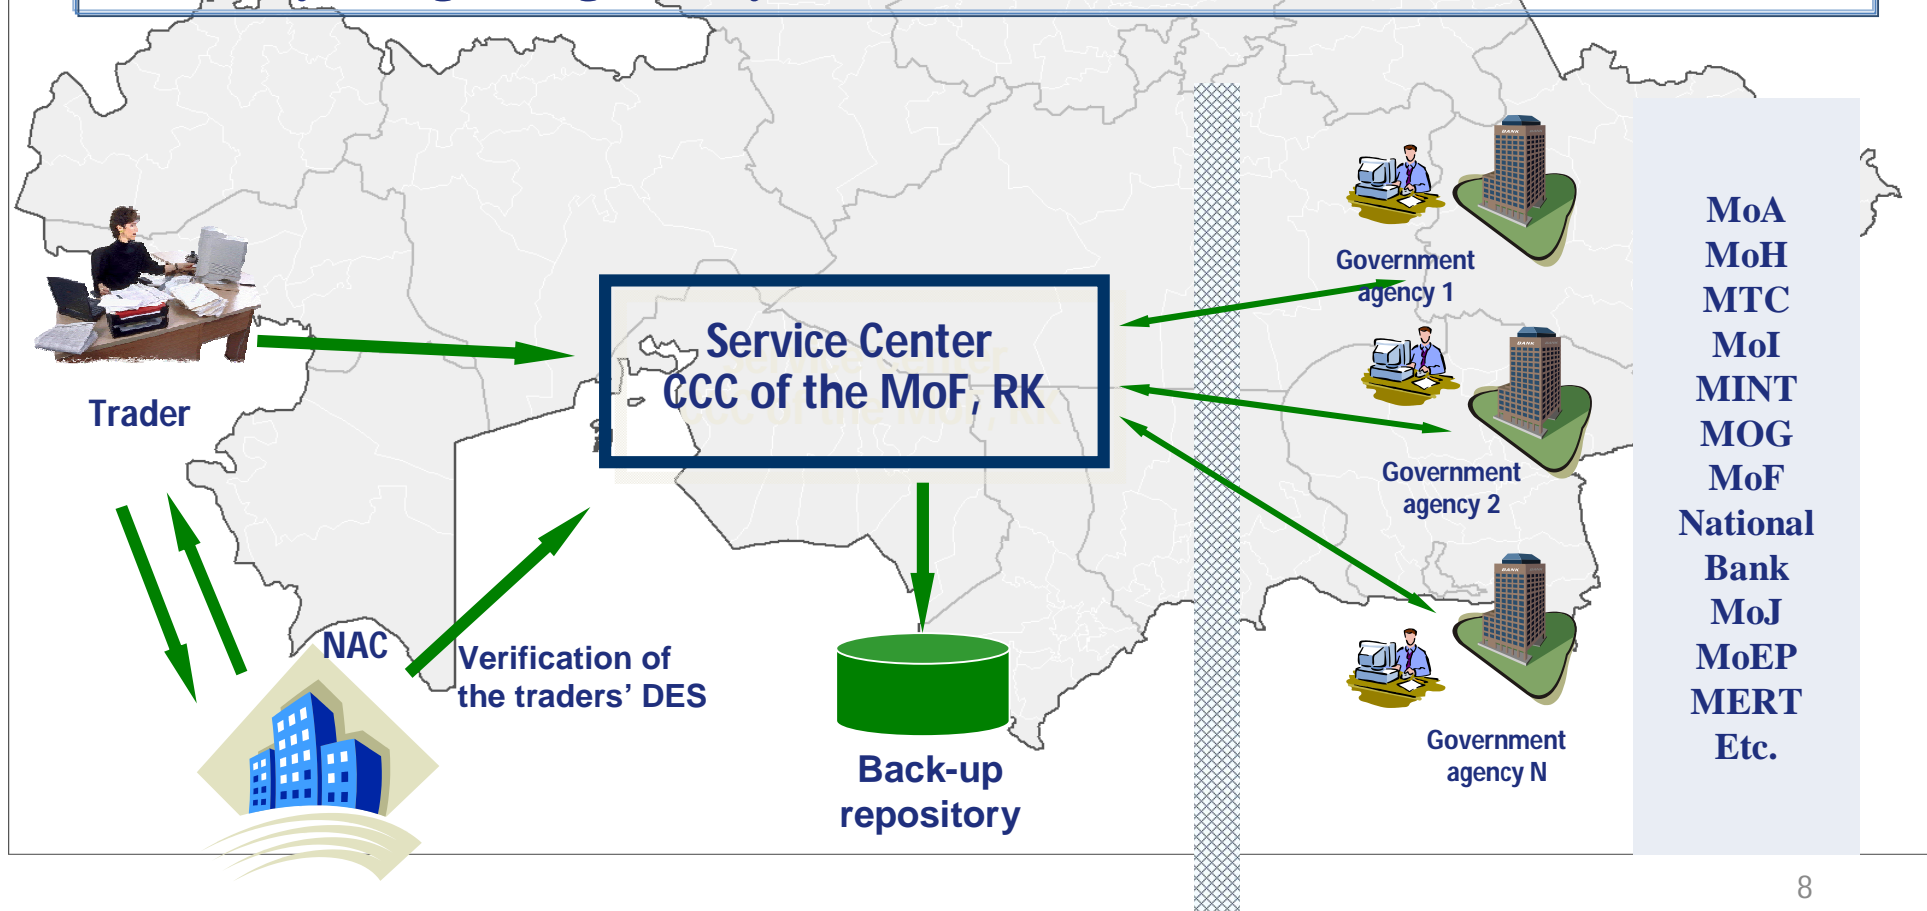

# Electronic Single Window Design for Kazakhstan

The Single Window is a mechanism enabling traders to submit standardized information and documents related to compliance with all import, export and transit regulatory requirements, which is done once in an electronic format by using a single entry channel

# Electronic Single Window Implementation Stages

**Establishment of the integrated tariff (a systematized detailed commodity reference book and tariff and non-tariff requirements applied to them by all government agencies for import and export of goods based on the Commodity Nomenclature for Foreign Economic Activities) in paper and electronic formats**

**Development and approval of the Uniform List of documents and requirements of all government agencies for import, export and transit of goods**

**Development of the Single Document format consistent with international standards**

**Development of the E-Window information system of government bodies (integration of information systems of all government bodies) based on e-declaration customs information system**

# Electronic Single Window

## Benefits

### ✓ FOR GOVERNMENT

- Improved risk management
- Increased security
- Increased revenues
- Ensuring traders compliance

### ✓ FOR TRADERS

- Transparent and predictable application of rules
- Effective deployment of human and financial resources
- Increased productivity and competitiveness
