

Mongolian national Chamber of Commerce and Industry (MNCCI)

Private-public partnership on trade facilitation in Mongolia

Ms.Gereltuya Bat-Ulzii

**Senior officer of Barcode & Logistics
division of MNCCI**

Why we need to facilitate trade...

- Mongolia is the developing & landlocked country with vulnerable economy & resources rich
- Mongolia trades with more than 130 countries
- Competitiveness indicators, doing business index including LPI, Trading across border aren't good.....
- Underdevelopment of infrastructure

Actions taken by the MNCCI

MNCCI is primary non-government organization works towards trade facilitation in Mongolia

- Developed “Export strategy” & submitted to the government
- Research at the border by using TCD to improve the logistics efficiency
- According to the UNESCAP guide, did BPA on main export & import 8 kinds of products
- Now doing TRS study at the main 9 border points
- Organizing some training and workshop to raise public awareness/understanding on TF including SEW with the support of ADB

(MNCCI-leads one of four working groups of SEW)

Actions taken by the MNCCI

- Based on these researches & studies, published “The roadmap of doing business in Mongolia”

This small brochure is:

- A useful tool for policymakers & researchers to understand main cause/reasons of bottlenecks, barriers within the supply chain/foreign trade
- what kinds of policy actions should be taken to manage it
- A convincing tool, Mongolia needs to take decisive actions to improve World bank doing business indicators.

As of today ... The reform's government

- Since the 2010, business environment reform, TF activities are still continuing...
- After the parliament election, new government declared itself "The reform's government"
- By the PM's decision, established working groups which headed by the head of cabinet of Mongolian government
 - on business environment reform,
 - to reduce special permits and licenses
 - to reorganise GASI /incooperation with MNCCI and its member businesses/

As of today ... The reform's government

- Based on the WB doing business indicators, listed high priority 10 sector to renew in short-term period
 1. Foreign trade
 2. Construction permits
 3. Electricity
 4. Reduction of special permits
 5. Starting business
 6. Taxation paying system
 7. Protecting investors
 8. Registration of property
 9. Renovation of border points
 10. Restructure GASI

As of today ... Implementation procedure of Single Window

- Developed MNSW implementation master plan with the support of UNESCAP & submitted to the government
- Approved a standing committee on SW & appointed as leading/implementation agencies by MCGA and MNCCI based on PPP principle.
- Established 4 WGs (BPDH, Legal, ICT, training and advertisement)
- In connection with the change of government, MED is working to renew the committee

As of today ... Implementation procedure of Single Window

- Recently, we made a preliminary technical negotiation on loan agreement and introduced to the cabinet of Mongolian government
- In our understanding, they are promoting to implement MNSW and but refused to take a loan from donors
- So trying to find another resources or grant to finance MNSW project

As of today ... Position of MNCCI On Single Window Implementation

- The cabinet hasn't yet officially informed us about the implementation of MNSW, but we hope it will be finalized very soon
- MNCCI would continue its activity without stopping, not waiting the government decision in order to raise public awareness, to convince them/stakeholders, decision makers that we should implement it and MNSW should be done.
 - Several series of training and study tours with the support of GIZ since April 2012
 - Upcoming planned seminars and trainings on SEW, trade facilitation and logistics development

As of today ... Upcoming plans of MNCCI on Trade facilitation

- Independantly with decision of Government, MNCCI intends to pursue its actons with ADB.
 - To organize next and high level training on SCM and logistics in Mongolia by proposal of business companies
 - To arrange study tour for logistics companies in China which has done first draft incooperation with CIFA
