Development of
the Single Window Scheme in the EEU

– development of national Single Window schemes;
– alignment of approaches to development of national Single window schemes;
–recognition of e-documents on a reciprocal basis;
– establishment of information exchange.

Statistics on using PTOs

In 2018 ~ 3,510 PTOs

From January to April 2019 год > 1,100 PTOs

ADVANTAGES

- Reduced costs as a result of reduced delays;
- Quicker clearance and release;
- Enhanced transparency;
- Reduced red tape and corruption;
- More proactive trade facilitation.

DISADVANTAGES

Different levels of automation of business processes in agencies, a different degree of readiness of adopted information systems, and some departments still lack information systems represent a significant obstacle to successful implementation of information exchange.
