RISK MANAGEMENT SYSTEM

Simplified registration:

- exports 84%,
- imports by 76% of cargo.

Customs inspection:

- reduced by 1.7 times,
- efficiency is increased 1.3 times.

Time :

- at exports 3 times
- at import 2 times decreased.

Previously, the registration of the cargo customs declaration took 2-3 hours, but as a result of automation of the process now it takes 2 minutes.

Risk Management System from June 1, 2020 at road border crossings, and from June 30, 2021 also implemented at the border rail checkpoints.

Through this system:

Green Channel - 32.4%

Yellow channel-62.3%

Red channel - 5.3%

goods are processed.

As a result, the time of customs clearance was reduced from 3 three days to 1 working day.

Time

Customs inspection

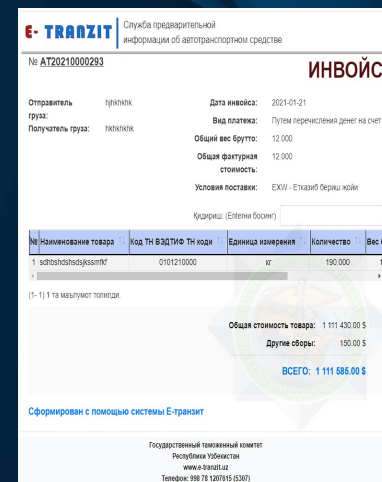

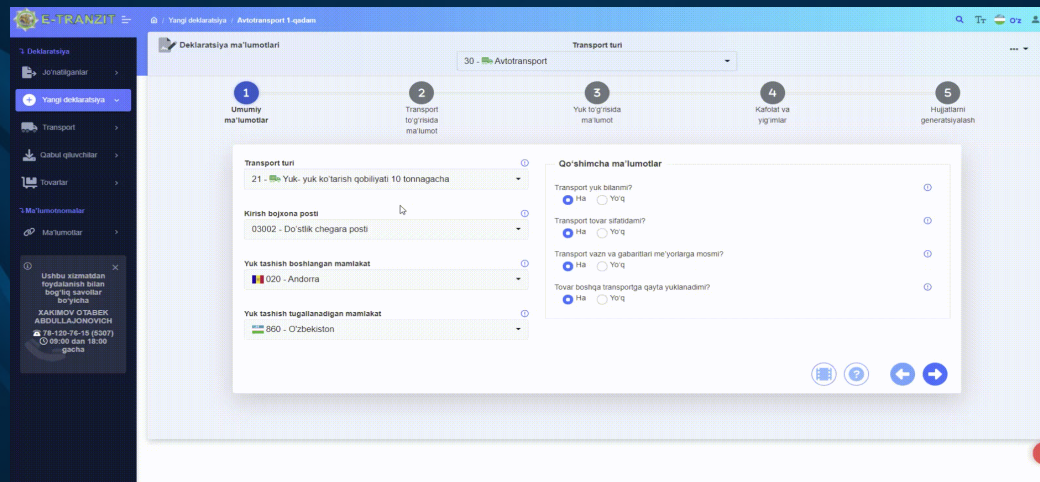

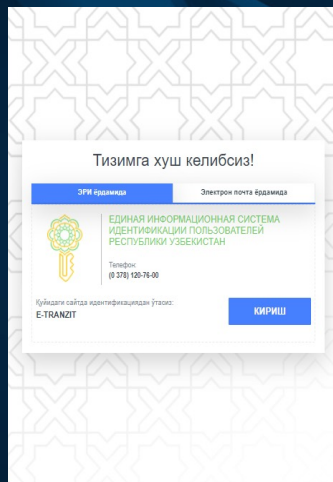

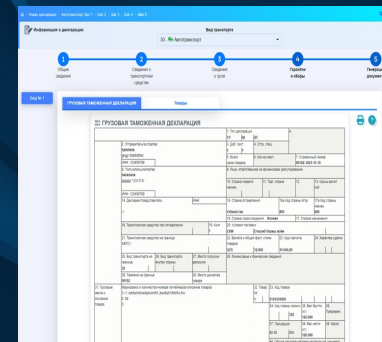

FOREIGN TRADE

E-TRANSIT

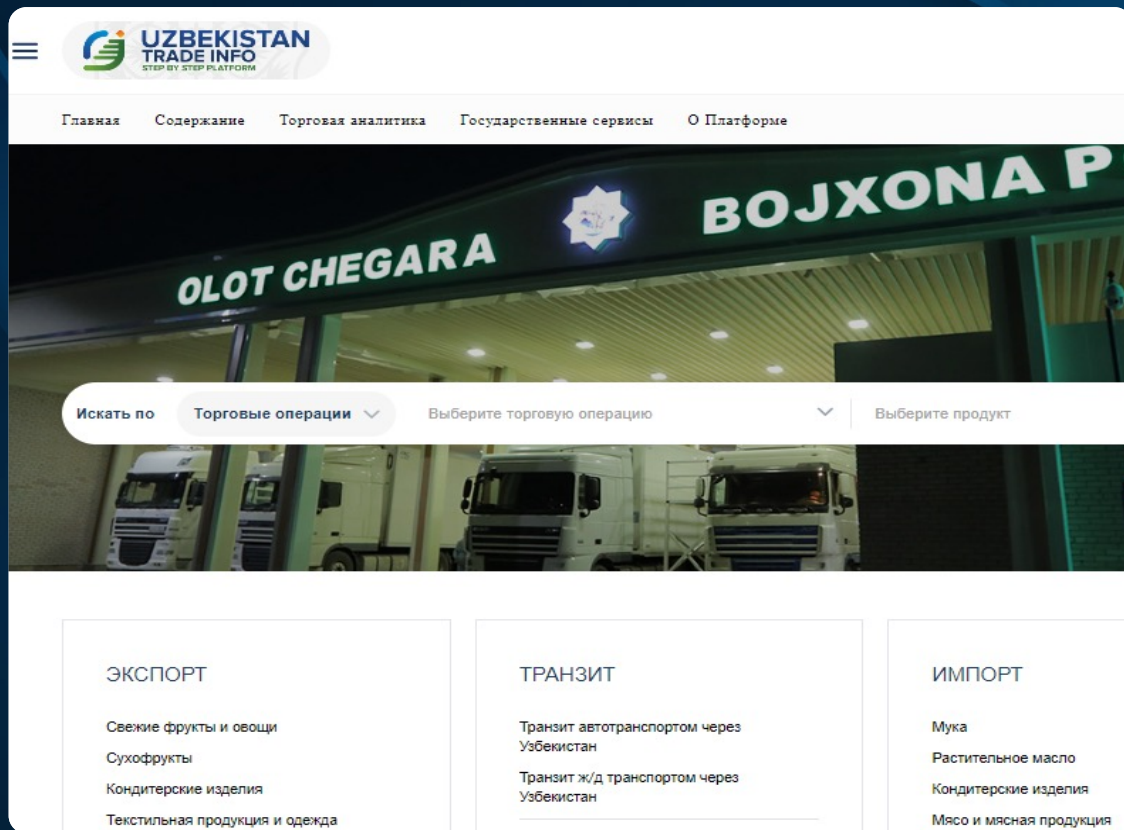

Resolution No. 737 of the Cabinet of Ministers of 31.12.2022 was adopted "On measures to regulate operations related to the placement of goods under the customs transit regime".

Operations related to submission and execution of transit declaration to customs authorities shall be carried out through the automated information system "E-Transit" of the Customs Committee

TRADE PORTAL - UZBEKISTAN TRADE INFO - UZTRADEINFO.UZ

 98
procedures

 49
commodity
group

Developed by the Ministry of Investment, Industry and Trade, the Customs Committee, with technical assistance from the International Trade Center (ITC), funded by the European Union (EU)

Ninety-eight import and export procedures by road, rail and air for 49 commodity groups were documented.

ELECTRONIC QUEUE - WWW.E-NAVBAT.CUSTOMS.UZ

E-Navbat system - introduction of electronic queuing at border customs posts

1-step. "Type of vehicle" You choose the type of transport. Today this system works only for trucks at the initial stage

Stage 2. "Border Point. Choosing a border country, you choose a convenient and necessary customs post.

Stage 3. "Time of Arrival." The required information and time is selected. In 1 hour you can pass an average of three vehicles in the queue, i.e. each vehicle is given 20 minutes on arrival

Stage 4. "Vehicle Information. Enter the license plate number, model and country of registration of the car. Then you press the button to issue. All CCD issued by the system is checked in boxes 18 and 33 (goods codes for HS)

Step 5. "Complete the process". After passing all stages, the system will give the order number. Upon arrival, based on the selected day and time, the order number will be presented to the customs officer for review

Thank you for your attention!
