

CAREC University Startup Generator Silicon Valley Innovation: Separating Breakthroughs from the Hype

Training for students interested in creation of innovative startup

20th December 2022 | 22:00 - 23:25 (GMT+8)

Click to join [Meeting Link](#)

During the training experts from Silicon Valley Jeff Wallace and Kal Deutsch will review the latest Gartner Hype Curve. This information will help you in the process of better understanding and evaluation of the latest tech innovations, such as AI and Crypto. In the following training, participants will go deep on a particular innovation to seek out a real value proposition. The audience will walk away understanding not only the latest technological trends, but also be armed with a framework to evaluate with a critical eye to help discern between hype and real innovation breakthroughs.

Agenda
